

August 6, 2012

KERATHERAPY OSHA COMPLIANCE STATEMENT

To all Distributors and Salon Professionals;

As you are aware over the last two years our industry has been adversely affected by the negative reports published in the media regarding keratin manufacturers and the use of formaldehyde. These reports published in the media cited OSHA reports of unsafe levels of formaldehyde and the non-disclosure of this ingredient in certain keratin products. The reports detailed the misleading practices of manufacturers and distributors not properly disclosing the formaldehyde concentration in their hair smoothing systems; and even worse, manufacturers would label their products as formaldehyde free. This gave our industry a significant black eye.

As a manufacturer, we recognize the need to be honest and transparent with our clients. In doing so, we have ensured that all of our keratin treatments containing formaldehyde, have the required OSHA compliant labeling and warnings in accordance with OSHA's standard, 29 CFR 1910.1048(m)(3). Also, our Material Safety Data Sheets for these products have the required information in accordance with OSHA standards 29 CFR 1910.1048(m)(4) and 29 CFR 1910.1200(g). In addition, to ensure our products do not violate the workplace safety standards as outline by OSHA, we commissioned the services of Columbia Analytical Services (ALS Environmental) to test the formaldehyde exposure limits in accordance with OSHA standard 1910.1048(c)(1).

On July 11th 2012 we simultaneously conducted two Air Quality tests in a 280sq.ft space using OSHA and EPA approved formaldehyde off-gas collection badges. We affixed one badge to the stylist during the application process and the other badge placed in close proximity to collect air samples of the room during and immediately following the treatment process. On July 17th, 2012 we received the final reports from Colombia Analytical Services indicating Formaldehyde exposure levels of 0.10ppm for the stylist and 0.022 for the entire salon. Based on the results of these tests we are proud to state that our products are 87% less than the 0.75ppm exposure level limits set by OSHA. We are proud to share the results of these tests with our distributors, salon professionals and consumers alike. For a copy of the full report, please contact us referencing CAS Project ID P1202820.

Sincerely

A handwritten signature in dark ink, appearing to read "David Mulhollen Jr.", with a long, sweeping flourish extending to the right.

David Mulhollen Jr.

President

Material Safety Data Sheet (MSDS)

| SECTION 1 - CHEMICAL PRODUCT AND COMPANY IDENTIFICATION |
|--|
| Product Name: Keratherapy Brazilian Keratin Renewal System: Intense Renewal |
| Company Identification: Developed for and Distributed by: Diora Professionnel, LLC 1037 NW 3rd Street Hallandale Beach, Florida 33009 Telephone: 877-267-9111 |
| Emergency Contact: In case of medical emergencies, please contact your local poison control center. Transportation Emergency Contact: Customer Support Line 877-267-9111 |

| SECTION 2 - COMPOSITION AND INGREDIENTS INFORMATION |
|--|
| Ingredients: Aqua, Cetyl Alcohol, Hydrolyzed Keratin, Aloe Barbadensis (Aloe Vera) Leaf Juice, Cyclopentasiloxane, Amodimethicone (And) Cetrimonium Chloride (And) Trideceth-10, Steartrimonium Chloride, Fragrance, Formalin, Mineral Oil, Glycerin, Collagen, Silk Amino Acids, Hydrolyzed Wheat Protein, Hydrolyzed Rice Protein, Linum Usitatissimum (Linseed) Seed Oil, Hydrolyzed Soy Protein, Hydrolyzed Silk Protein, Certified Organic Butyrospermum Parkii (Shea Butter) Fruit, Certified Organic Aspalathus Linearis (Rooibos) Extract, Certified Organic Camellia Sinensis (Green Tea) Leaf Extract, Hydroxyethyl Cellulose, Strearamidopropyl, Dimethylamine, EDTA. |
| Hazardous Ingredients: Formaldehyde CAS# 50-00-0 |

| SECTION 3 - HAZARDS IDENTIFICATION |
|--|
| EMERGENCY OVERVIEW: This is a professional use product to be applied by a licensed professional in a licensed facility in accordance with supplied instructions. Care should be taken to follow the product application and storage instructions thoroughly. Slightly hazardous in case of skin contact (sensitizer), eye contact (irritant) or inhalation. Adequate ventilation and protective apparatus (Gloves, Safety Glasses, Respiratory Mask) should be used in cases of prolonged exposure. Additional information and/or Toxicological endpoints is available from the supplier upon request. |
| POTENTIAL HEALTH EFFECTS: |
| Eye: Contact may cause irritation. Some redness and/or stinging may occur. |
| Skin: May cause skin irritation. Some redness and/or stinging may occur. |
| Inhalation: May cause respiratory irritation. Persons with respiratory illness should avoid prolonged exposure. |
| Ingestion: Do not ingest. May cause gastro intestinal irritation with nausea and vomiting if swallowed. |

SECTION 4 - EMERGENCY AND FIRST AID MEASURES

Eye:

Immediately flush eyes with running water for at least 15 minutes and seek medical attention.

Skin Problem:

Wash with soap and water and cover affected area with a emollient. If irritation persist, seek medical attention.

Inhalation:

Discontinue use and seek fresh air. If breathing is difficult or not breathing, seek immediately medical attention.

Ingestion:

Do not induce vomiting unless directed by a medical personnel. Seek immediate medical attention.

SECTION 5 - FIRE FIGHTING MEASURES

Flammability Classification:

Non-Flammable

Flash Point:

Unknown

Extinguishing Media:

Water spray, foam, carbon dioxide, dry chemical.

Explosion Hazard:

None

Fire Fighting Instructions:

No special fire fighting instructions. Water spray, foam, carbon dioxide, dry chemical.

SECTION 6 - ACCIDENTAL RELEASE MEASURES

For Small Spills:

Absorb liquid with inert material (dry sand or soil) and scrub area with detergent and water. Dispose of spilled substance in appropriate container.

For Large Spills:

Dike or other containment method to keep material from reaching waterway. Remove dike material to appropriate container. Clean area with detergent, solvents and/or water. Use of personal protection and equipment (Gloves, Safety Glass and Respiratory Mask) should be used to limit exposure.

SECTION 7 - HANDLING AND STORAGE

Usage Precautions:

Keep container closed. Use only with adequate ventilation. Avoid Breathing vapor or mist, keep away from heat sparks and flame. Wash hands thoroughly after handling.

Storage Precautions:

Store in a cool dry area. Protect from freezing and extreme heat. Keep out of reach of children. Keep container tightly closed and sealed until ready for use.

SECTION 8 - EXPOSURE CONTROLS, PERSONAL PROTECTION

Respiratory Protection:

If respiratory risk exist or prolong exposure the use of a air-purifying respiratory mask is recommended.

Ventilation:

Use only in well ventilated area. Normal salon ventilation based on OSHA regulations (1910.1048c).

Protective Clothing:

Protective gloves resistant to chemical. Nitrile rubber gloves recommended.

Eye Protection:

Use safety glasses or splash shield.

Other Precautions:

Wash hands thoroughly after handling product, before eating, smoking or drinking.

SECTION 9 - PHYSICAL AND CHEMICAL PROPERTIES

Color, Odor and Appearance: Off-White/Yellow. **Physical State:** Cream

pH: 4.0 - 5.5. **Flash Point:** N/A. **Vapor Density (air = 1):** Greater than 1

Melting Point: N/A. **Boiling Point:** N/A. **Solubility in Water:** Slightly Soluble.

Specific Gravity: Approx. 1. **Evaporation Rate (water = 1):** Less than 1

SECTION 10 - STABILITY AND REACTIVITY

Stability:

Stable

Conditions to Avoid:

Slightly reactive with oxidizing and reducing materials, acids, alkalis. Avoid extreme heat and freezing.

Other Recommendations:

None

SECTION 11 - TOXICOLOGICAL INFORMATION

Health Warnings:

Skin, eye and nasal irritation may occur.

Chronic Effects:

May have chronic effects if improper use or exposure.

Other Toxic Effects of Humans:

Slightly hazardous in case of skin contact, ingestion or inhalation.

SECTION 12 - ECOLOGICAL INFORMATION

Ecotoxicity:

This product is expected to be safe for the environment at the concentration levels present in case of accidental spillage. Large quantities should not be discharged in waterways to prevent pollution of waterways.

Degradability:

Possible hazardous short term degradation products are not likely; however, long term degradation products may arise. The products of degradation are less toxic than the product itself.

SECTION 13 - DISPOSAL CONSIDERATIONS

Waste Disposal Method:

Disposal should be in accordance with Federal, State and Local regulations. Do not dispose of in waterways, drains, sewers or in soil.

SECTION 14 - TRANSPORTATION INFORMATION

Finished packaged product transported by ground (DOT): Non-hazardous

Finished packaged product transported by vessel (IMDG): Non-hazardous

Finished packaged product transported by air (IATA): Non-hazardous

SECTION 15 - REGULATORY INFORMATION

Regulated as a Cosmetic and/or Drug under FDA (US), HBP (Canada), Cosmetics Directive (EU), MHW (Japan) and MOH (China).

US Federal:

The product described in this MSDS is regulated under the FDA Cosmetics Act and is safe to use as per directions on container, box or accompanying literature.

United States of America:

California Prop 65:

This product is not subject to warning labeling under California Proposition 65.

Canada:

This is not approved for sale or use in Canada.

European Commission "Cosmetics Directive" 76/768/EEC and Cosmetic Ingredients Review:

This is not approved for sale or use in Europe or European Union Nations.

Other:

Fragrances/Perfumes contained within the products covered under this MSDS comply with appropriate IFRA guidance.

SECTION 16 - OTHER INFORMATION

DISCLAIMER:

This MSDS is intended to provide a brief summary of our knowledge and guidance regarding the use of this material. The information contained here has been compiled from sources considered by Diora Professionnel to be dependable and is accurate to the best of the company's knowledge. It is not meant to be an all-inclusive document on worldwide hazard communication regulations.

This information is offered in good faith. Each user of this material needs to evaluate the conditions of use and design the appropriate protective mechanisms to prevent employee exposures, property damage or release to the environment. Diora Professionnel assumed no responsibility for injury to the recipient or third persons, or for any damage to any property resulting from misuse of the product.

Material Safety Data Sheet (MSDS)

| SECTION 1 - CHEMICAL PRODUCT AND COMPANY IDENTIFICATION |
|--|
| Product Name: Keratherapy Brazilian Keratin Renewal System: Keratin Infused Argan Oil |
| Company Identification: Developed for and Distributed by: Diora Professionnel, LLC 1037 NW 3rd Street Hallandale Beach, Florida 33009 Telephone: 877-267-9111 |
| Emergency Contact: In case of medical emergencies, please contact your local poison control center. Transportation Emergency Contact: Customer Support Line 877-267-9111 |

| SECTION 2 - COMPOSITION AND INGREDIENTS INFORMATION |
|---|
| Ingredients: Cyclopentasiloxane, Dimethicone Crosspolymer, Hydrolyzed Keratin, Argania Spinosa (Argan) Oil, Fragrance, Alpha-Isomethyl Ionone, Butylphenyl Methylpitoinal, Coumarin, Hydroxyisohexyl 3- Cyclohexene Carboxaldehyde, Linalool, D&C Red #17/Cl.16035, D&C Yellow #11/Cl.47000 |
| Hazardous Ingredients: None |

| SECTION 3 - HAZARDS IDENTIFICATION |
|--|
| EMERGENCY OVERVIEW: This is a personal care or cosmetic product that is safe for consumers and other users under intended and reasonable foreseeable use. Additional information and/or Toxicological endpoints is available from the supplier upon request. |
| POTENTIAL HEALTH EFFECTS: Eye: Contact may cause irritation. Some redness and/or stinging may occur. |
| Skin: Not expected to be irritating, sensitizing, photoallergenic or phototoxic when used as intended. If irritation occurs following intended use or prolonged contact it is expected to be mild and transient. |
| Inhalation: Not expected to be irritating to the respiratory system. Not volatile therefore limited inhalation exposure anticipated. |
| Ingestion: Do not ingest. May cause gastrointestinal irritation with nausea and vomiting if swallowed. |

SECTION 4 - EMERGENCY AND FIRST AID MEASURES

Eye:

Immediately flush eyes with running water for at least 15 minutes. If discomfort irritation persists, seek medical attention.

Skin Problem:

Discontinue use of product. Rinse affected area with cold water to relieve discomfort. If irritation persist, seek medical attention.

Inhalation:

Discontinue use and seek fresh air. If breathing is difficult or not breathing, seek immediately medical attention.

Ingestion:

Do not induce vomiting unless directed by a medical personnel. Seek immediate medical attention.

SECTION 5 - FIRE FIGHTING MEASURES

Flammability Classification:

Non-Flammable

Flash Point:

Unknown

Extinguishing Media:

Water spray, foam, carbon dioxide, dry chemical.

Explosion Hazard:

None

Fire Fighting Instructions:

No special fire fighting instructions. Water spray, foam, carbon dioxide, dry chemical.

SECTION 6 - ACCIDENTAL RELEASE MEASURES

For Small Spills:

Absorb liquid with inert material (dry sand or soil) and scrub area with detergent and water. Dispose of spilled substance in appropriate container.

For Large Spills:

Dike or other containment method to keep material from reaching waterway. Remove dike material to appropriate container. Clean area with detergent, solvents and/or water. Use of personal protection and equipment (Gloves, Safety Glass and Respiratory Mask) should be used to limit exposure.

SECTION 7 - HANDLING AND STORAGE

Usage Precautions:

No applicable information has been found.

Storage Precautions:

Store in a cool dry area. Protect from freezing and extreme heat. Keep out of reach of children.

SECTION 8 - EXPOSURE CONTROLS, PERSONAL PROTECTION

Respiratory Protection:

No respiratory irritation data exist. This is a personal care product safe for consumers and other users under normal and reasonably foreseen use.

Ventilation:

No special ventilation requirements exist.

Protective Clothing:

Protective gloves, aprons and other clothing to prevent skin contact. Avoid prolonged contact with skin and clothing.

Eye Protection:

Use safety glasses or splash shield if splash hazards exist.

Other Precautions:

Wash hands thoroughly after handling product, before eating, smoking or drinking.

SECTION 9 - PHYSICAL AND CHEMICAL PROPERTIES

Color, Odor and Appearance: Light Orange, Fruit Fragrance, oil . **Physical State:** Oil

pH (at 25°C): N/A. **Flash Point:** N/A. **Vapor Density (air = 1):** Greater than 1

Melting Point: N/A. **Boiling Point:** N/A. **Solubility in Water:** Soluble.

Specific Gravity: Approx. 1. **Evaporation Rate (water = 1):** Less than 1

SECTION 10 - STABILITY AND REACTIVITY

Stability:

Stable

Conditions to Avoid:

Slightly reactive with oxidizing and reducing materials, acids, alkalis. Avoid extreme heat and freezing.

Other Recommendations:

None

SECTION 11 - TOXICOLOGICAL INFORMATION

Health Warnings:

May cause skin or eye irritation.

Chronic Effects:

Finished product is not expected to have chronic health effects.

Other Toxic Effects of Humans:

Slightly hazardous if ingested.

SECTION 12 - ECOLOGICAL INFORMATION

Ecotoxicity:

This product is expected to be safe for the environment at the concentration levels present in case of accidental spillage. Large quantities should not be discharged in waterways to prevent pollution of waterways.

Degradability:

Possible hazardous short term degradation products are not likely; however, long term degradation products may arise. The products of degradation are less toxic than the product itself.

SECTION 13 - DISPOSAL CONSIDERATIONS

Waste Disposal Method:

Disposal should be in accordance with Federal, State and Local regulations. Do not dispose of in waterways, drains, sewers or in soil.

SECTION 14 - TRANSPORTATION INFORMATION

Finished packaged product transported by ground (DOT): Non-hazardous

Finished packaged product transported by vessel (IMDG): Non-hazardous

Finished packaged product transported by air (IATA): Non-hazardous

SECTION 15 - REGULATORY INFORMATION

Regulated as a Cosmetic and/or Drug under FDA (US), HBP (Canada), Cosmetics Directive (EU), MHW (Japan) and MOH (China).

US Federal:

The product described in this MSDS is regulated under the FDA Cosmetics Act and is safe to use as per directions on container, box or accompanying literature.

United States of America:

California Prop 65:

This product is not subject to warning labeling under California Proposition 65.

Other:

Fragrances/Perfumes contained within the products covered under this MSDS comply with appropriate IFRA guidance.

| Ingredients: Aqua, Sodium Lauerth Sulfate, Cocamidopropyl Betaine, Cocamide DEA, Glycol Distearate, Polyquaternium-7, Polyquaternium-10, PEG/PPG-120/10 Trimethylolpropane Trioleate (and) Laureth-2 (EU 2006/257/EC), PEG/PPG-120/10 Trimethylolpropane Trioleate (and) Laureth-2 (CTFA), Amodimethicone, Cetrimonium Chloride, Trideceth-12, Hydrolyzed Collagen, PEG-12 Dimethicone Dimethiconol, TEA-Dodecylbenzenesulfonate, Hydrolyzed Keratin, Parfum, Citric Acid, Methylchloroisothiazolinone, Methylisothiazolinone, Magnesium Nitrate, Disodium EDTA, CI 10316, Theobroma Grandiorum (Cupuacu) Fruit Extract, Astrocaryum Murumuru Seed Extract (Murumuru). |
| Hazardous Ingredients: None |

| SECTION 3 - HAZARDS IDENTIFICATION |
|---|
| EMERGENCY OVERVIEW: This is a professional use product to be applied by a licensed professional in a licensed facility in accordance with supplied instructions. Care should be taken to follow the product application and storage instructions thoroughly. Slightly hazardous in case of skin contact (sensitizer), eye contact (irritant) or inhalation. Adequate ventilation and/or protective apparatus are recommended in cases of prolonged exposure. Additional information and/or Toxicological endpoints is available from the supplier upon request. |
| POTENTIAL HEALTH EFFECTS: Eye: Contact may cause irritation. Some redness and/or stinging may occur. |
| Skin: May cause skin irritation. Some redness and/or stinging may occur. |
| Inhalation: May cause respiratory irritation. Persons with respiratory illness should avoid prolonged exposure. |
| Ingestion: Do not ingest. May cause gastrointestinal irritation with nausea and vomiting if swallowed. |

SECTION 4 - EMERGENCY AND FIRST AID MEASURES

Eye:

Immediately flush eyes with running water for at least 15 minutes and seek medical attention.

Skin Problem:

Wash with soap and water and cover affected area with a emollient. If irritation persist, seek medical attention.

Inhalation:

Discontinue use and seek fresh air. If breathing is difficult or not breathing, seek immediately medical attention.

Ingestion:

Do not induce vomiting unless directed by a medical personnel. Seek immediate medical attention.

SECTION 5 - FIRE FIGHTING MEASURES

Flammability Classification:

Non-Flammable

Flash Point:

Unknown

Extinguishing Media:

Water spray, foam, carbon dioxide, dry chemical.

Explosion Hazard:

None

Fire Fighting Instructions:

No special fire fighting instructions. Water spray, foam, carbon dioxide, dry chemical.

SECTION 6 - ACCIDENTAL RELEASE MEASURES

For Small Spills:

Absorb liquid with inert material (dry sand or soil) and scrub area with detergent and water. Dispose of spilled substance in appropriate container.

For Large Spills:

Dike or other containment method to keep material from reaching waterway. Remove dike material to appropriate container. Clean area with detergent, solvents and/or water. Use of personal protection and equipment (Gloves, Safety Glass and Respiratory Mask) should be used to limit exposure.

SECTION 7 - HANDLING AND STORAGE

Usage Precautions:

Keep container closed. Use only with adequate ventilation. Avoid Breathing vapor or mist, keep away from heat sparks and flame. Wash hands thoroughly after handling.

Storage Precautions:

Store in a cool dry area. Protect from freezing and extreme heat. Keep out of reach of children. Keep container tightly closed and sealed until ready for use.

SECTION 8 - EXPOSURE CONTROLS, PERSONAL PROTECTION

Respiratory Protection:

If respiratory risk exist or prolonged exposure the use of a air-purifying respiratory mask is recommended.

Ventilation:

Use only in well ventilated area. Normal salon ventilation based on OSHA regulations (1910.1048c).

Protective Clothing:

Protective gloves resistant to chemical. Nitrile rubber gloves recommended.

Eye Protection:

Use safety glasses or splash shield.

Other Precautions:

Wash hands thoroughly after handling product, before eating, smoking or drinking.

SECTION 9 - PHYSICAL AND CHEMICAL PROPERTIES

Color, Odor and Appearance: Pearl/Yellow, Fruit Fragrance, Liquid. **Physical State:** Liquid

pH (at 25°C): 4.0 - 5.0. **Flash Point:** N/A. **Vapor Density (air = 1):** Greater than 1

Melting Point: N/A. **Boiling Point:** N/A. **Solubility in Water:** Slightly Soluble.

Specific Gravity: Approx. 1. **Evaporation Rate (water = 1):** Less than 1

SECTION 10 - STABILITY AND REACTIVITY

Stability:

Stable

Conditions to Avoid:

Slightly reactive with oxidizing and reducing materials, acids, alkalis. Avoid extreme heat and freezing.

Other Recommendations:

None

SECTION 11 - TOXICOLOGICAL INFORMATION

Health Warnings:

Skin, eye and nasal irritation may occur.

Chronic Effects:

May have chronic effects if improper use.

Other Toxic Effects of Humans:

Slightly hazardous if ingested.

SECTION 12 - ECOLOGICAL INFORMATION

Ecotoxicity:

This product is expected to be safe for the environment at the concentration levels present in case of accidental spillage. Large quantities should not be discharged in waterways to prevent pollution of waterways.

Degradability:

Possible hazardous short term degradation products are not likely; however, long term degradation products may arise. The products of degradation are less toxic than the product itself.

SECTION 13 - DISPOSAL CONSIDERATIONS

Waste Disposal Method:

Disposal should be in accordance with Federal, State and Local regulations. Do not dispose of in waterways, drains, sewers or in soil.

SECTION 14 - TRANSPORTATION INFORMATION

Finished packaged product transported by ground (DOT): Non-hazardous

Finished packaged product transported by vessel (IMDG): Non-hazardous

Finished packaged product transported by air (IATA): Non-hazardous

SECTION 15 - REGULATORY INFORMATION

Regulated as a Cosmetic and/or Drug under FDA (US), HBP (Canada), Cosmetics Directive (EU), MHW (Japan) and MOH (China).

US Federal:

The product described in this MSDS is regulated under the FDA Cosmetics Act and is safe to use as per directions on container, box or accompanying literature.

United States of America:
California Prop 65:

This product is not subject to warning labeling under California Proposition 65.

| Information on Ingredients: | CAS #: | Level Present: |
|-----------------------------|------------|----------------|
| Aqua | 7732-18-5 | 54.5% |
| Sodium Laureth Sulfate | 9002-84-4 | 25% |
| Cocoamidopropyl Betaine | 61789-40-0 | 5% |
| Polyquaternium | 26590-05-6 | 0.5% |

Other:

Fragrances/Perfumes contained within the products covered under this MSDS comply with appropriate IFRA guidance.

SECTION 16 - OTHER INFORMATION

DISCLAIMER:

This MSDS is intended to provide a brief summary of our knowledge and guidance regarding the use of this material. The information contained here has been compiled from sources considered by Diora Professionnel to be dependable and is accurate to the best of the company's knowledge. It is not meant to be an all-inclusive document on worldwide hazard communication regulations.

This information is offered in good faith. Each user of this material needs to evaluate the conditions of use and design the appropriate protective mechanisms to prevent employee exposures, property damage or release to the environment. Diora Professionnel assumed no responsibility for injury to the recipient or third persons, or for any damage to any property resulting from misuse of the product.

Material Safety Data Sheet (MSDS)

| SECTION 1 - CHEMICAL PRODUCT AND COMPANY IDENTIFICATION |
|--|
| Product Name: Keratherapy Brazilian Keratin Renewal System: Advanced Renewal Step 2 Smooth |
| Company Identification: Developed for and Distributed by: Diora Professionnel, LLC 1037 NW 3rd Street Hallandale Beach, Florida 33009 Telephone: 877-267-9111 |
| Emergency Contact: In case of medical emergencies, please contact your local poison control center. Transportation Emergency Contact: Customer Support Line 877-267-9111 |

| SECTION 2 - COMPOSITION AND INGREDIENTS INFORMATION |
|--|
| Ingredients: Aqua, Glyoxylyol Carbocisteine (and) Glyoxylyol Keratin Amino Acids (and) Water, CI 16185, Cetrimonium Chloride, Glycerin, Cetearyl Alcohol, Ceteareth-20, Dicetyl Phosphate, Ceteth-10 Phosphate, Triticum Vulgare (Wheat) Germ oil, Amodimethicone, Trideceth-12, Orbignya Oleifera (Babassu) Seed oil, Behentrimonium Methosulfate, Phenyl Trimethiconol, Ethylhexyl Palmitate, Parfum, Cyclopentasiloxane, Dimethiconol, Dimethicone Crosspolymer, BHT, Ceramide 3, Magnesium Nitrate, PEG-90M, Theobroma Grandiorum (Cupuacu) Fruit Extract, Astrocaryum Murumuru Seed Extract (Murumuru). |
| Hazardous Ingredients: None |

| SECTION 3 - HAZARDS IDENTIFICATION |
|---|
| EMERGENCY OVERVIEW: This is a professional use product to be applied by a licensed professional in a licensed facility in accordance with supplied instructions. Care should be taken to follow the product application and storage instructions thoroughly. Slightly hazardous in case of skin contact (sensitizer), eye contact (irritant) or inhalation. Adequate ventilation and/or protective apparatus are recommended in cases of prolonged exposure. Additional information and/or Toxicological endpoints is available from the supplier upon request. |
| POTENTIAL HEALTH EFFECTS: Eye: Contact may cause irritation. Some redness and/or stinging may occur. |
| Skin: May cause skin irritation. Some redness and/or stinging may occur. |
| Inhalation: May cause respiratory irritation. Persons with respiratory illness should avoid prolonged exposure. |
| Ingestion: Do not ingest. May cause gastrointestinal irritation with nausea and vomiting if swallowed. |

SECTION 4 - EMERGENCY AND FIRST AID MEASURES

Eye:

Immediately flush eyes with running water for at least 15 minutes and seek medical attention.

Skin Problem:

Wash with soap and water and cover affected area with a emollient. If irritation persist, seek medical attention.

Inhalation:

Discontinue use and seek fresh air. If breathing is difficult or not breathing, seek immediately medical attention.

Ingestion:

Do not induce vomiting unless directed by a medical personnel. Seek immediate medical attention.

SECTION 5 - FIRE FIGHTING MEASURES

Flammability Classification:

Non-Flammable

Flash Point:

Unknown

Extinguishing Media:

Water spray, foam, carbon dioxide, dry chemical.

Explosion Hazard:

None

Fire Fighting Instructions:

No special fire fighting instructions. Water spray, foam, carbon dioxide, dry chemical.

SECTION 6 - ACCIDENTAL RELEASE MEASURES

For Small Spills:

Absorb liquid with inert material (dry sand or soil) and scrub area with detergent and water. Dispose of spilled substance in appropriate container.

For Large Spills:

Dike or other containment method to keep material from reaching waterway. Remove dike material to appropriate container. Clean area with detergent, solvents and/or water. Use of personal protection and equipment (Gloves, Safety Glass and Respiratory Mask) should be used to limit exposure.

SECTION 7 - HANDLING AND STORAGE

Usage Precautions:

Keep container closed. Use only with adequate ventilation. Avoid Breathing vapor or mist, keep away from heat sparks and flame. Wash hands thoroughly after handling.

Storage Precautions:

Store in a cool dry area. Protect from freezing and extreme heat. Keep out of reach of children. Keep container tightly closed and sealed until ready for use.

SECTION 8 - EXPOSURE CONTROLS, PERSONAL PROTECTION

Respiratory Protection:

If respiratory risk exist or prolonged exposure the use of a air-purifying respiratory mask is recommended.

Ventilation:

Use only in well ventilated area. Normal salon ventilation based on OSHA regulations (1910.1048c).

Protective Clothing:

Protective gloves resistant to chemical. Nitrile rubber gloves recommended.

Eye Protection:

Use safety glasses or splash shield.

Other Precautions:

Wash hands thoroughly after handling product, before eating, smoking or drinking.

SECTION 9 - PHYSICAL AND CHEMICAL PROPERTIES

Color, Odor and Appearance: Violet, Fruit Fragrance, Liquid. **Physical State:** Liquid.

pH (at 25°C): 1.0 - 2.0. **Flash Point:** N/A. **Vapor Density (air = 1):** Greater than 1

Melting Point: N/A. **Boiling Point:** N/A. **Solubility in Water:** Slightly Soluble.

Specific Gravity: Approx. 1. **Evaporation Rate (water = 1):** Less than 1

SECTION 10 - STABILITY AND REACTIVITY

Stability:

Stable

Conditions to Avoid:

Slightly reactive with oxidizing and reducing materials, acids, alkalis. Avoid extreme heat and freezing.

Other Recommendations:

None

SECTION 11 - TOXICOLOGICAL INFORMATION

Health Warnings:

Skin, eye and nasal irritation may occur.

Chronic Effects:

May have chronic effects if improper use.

Other Toxic Effects of Humans:

Slightly hazardous if ingested.

SECTION 12 - ECOLOGICAL INFORMATION

Ecotoxicity:

This product is expected to be safe for the environment at the concentration levels present in case of accidental spillage. Large quantities should not be discharged in waterways to prevent pollution of waterways.

Degradability:

Possible hazardous short term degradation products are not likely; however, long term degradation products may arise. The products of degradation are less toxic than the product itself.

SECTION 13 - DISPOSAL CONSIDERATIONS

Waste Disposal Method:

Disposal should be in accordance with Federal, State and Local regulations. Do not dispose of in waterways, drains, sewers or in soil.

SECTION 14 - TRANSPORTATION INFORMATION

Finished packaged product transported by ground (DOT): Non-hazardous

Finished packaged product transported by vessel (IMDG): Non-hazardous

Finished packaged product transported by air (IATA): Non-hazardous

SECTION 15 - REGULATORY INFORMATION

Regulated as a Cosmetic and/or Drug under FDA (US), HBP (Canada), Cosmetics Directive (EU), MHW (Japan) and MOH (China).

US Federal:

The product described in this MSDS is regulated under the FDA Cosmetics Act and is safe to use as per directions on container, box or accompanying literature.

United States of America:
California Prop 65:

This product is not subject to warning labeling under California Proposition 65.

| Information on Ingredients: | CAS #: | Level Present: |
|-----------------------------|-------------------------------------|----------------|
| Aqua | 7732-18-5 | 30% |
| Gly Carbo/Gly Keratin/Aqua | 1268868-51-4/1269630-89-8/7732-18-5 | 20% |
| Cetearyl Alcohol | 67762-27-0 | 4% |
| Cetrimonium Chloride | 112-02-7 | 5% |

Other:

Fragrances/Perfumes contained within the products covered under this MSDS comply with appropriate IFRA guidance.

| SECTION 2 - COMPOSITION AND INGREDIENTS INFORMATION |
|---|
| Ingredients: Deionized Water (Aqua), Glyceryl Stearate, Peg 100 Stearate, Dimethicone, Polyquaternium-37, Propylene Glycol Dicaprylate/Dicaprate, PPG-1 Trideceth-6, Caprylyl Glycol, Argania Spinosa (Argan) Oil, Hydrolyzed Keratin, Hydrolyzed Collagen, Acetamide MEA, Panthenol, Propylene Glycol, Sorbitol, Sodium Cocoyl Collagen Amino Acid, Cocoyl Sarcosine, Wheat Germ Acid, Triticum Vulgare (Wheat) Germ Oil, Linolenic Acid, Sulfur, Polysorbate 80, Oleth-10, Simmondsia Chinensis (Jojoba) Seed Oil, Tocopheryl Acetate, Hydrolyzed Glycosaminoglycans, Oxoacetamide Carbocysteine, Oxoacetamide Amino Acids, Methylisothiazolinone, Benzyl Salicylate, Hexyl Cinnamal, Limonene, Linalool, Hydroxyisohexyl 3-Cyclohexene Carboxaldehyde (Lyril), Butylphenyl Methylpropional (Lilial), Hydroxycitronellal Benzyl Benzoate, Citronellol, Fragrance. |
| Hazardous Ingredients: None |

| SECTION 3 - HAZARDS IDENTIFICATION |
|--|
| EMERGENCY OVERVIEW: This is a personal care or cosmetic product that is safe for consumers and other users under intended and reasonable foreseeable use. Additional information and/or Toxicological endpoints is available from the supplier upon request. |
| POTENTIAL HEALTH EFFECTS: Eye: Contact may cause irritation. Some redness and/or stinging may occur. |
| Skin: Not expected to be irritating, sensitizing, photoallergenic or phototoxic when used as intended. If irritation occurs following intended use or prolonged contact it is expected to be mild and transient. |
| Inhalation: Not expected to be irritating to the respiratory system. Not volatile therefore limited inhalation exposure anticipated. |
| Ingestion: Do not ingest. May cause gastrointestinal irritation with nausea and vomiting if swallowed. |

SECTION 4 - EMERGENCY AND FIRST AID MEASURES

Eye:

Immediately flush eyes with running water for at least 15 minutes. If discomfort irritation persists, seek medical attention.

Skin Problem:

Discontinue use of product. Rinse affected area with cold water to relieve discomfort. If irritation persist, seek medical attention.

Inhalation:

Discontinue use and seek fresh air. If breathing is difficult or not breathing, seek immediately medical attention.

Ingestion:

Do not induce vomiting unless directed by a medical personnel. Seek immediate medical attention.

SECTION 5 - FIRE FIGHTING MEASURES

Flammability Classification:

Non-Flammable

Flash Point:

Unknown

Extinguishing Media:

Water spray, foam, carbon dioxide, dry chemical.

Explosion Hazard:

None

Fire Fighting Instructions:

Contact emergency personnel. Use self-contained breathing apparatus and full protective gear, if large quantities of product are involved.

SECTION 6 - ACCIDENTAL RELEASE MEASURES

For Small Spills:

Absorb liquid with inert material (dry sand or soil) and scrub area with detergent and water. Dispose of spilled substance in appropriate container.

For Large Spills:

Dike or other containment method to keep material from reaching waterway. Remove dike material to appropriate container. Clean area with detergent, solvents and/or water. Use of personal protection and equipment (Gloves, Safety Glass and Respiratory Mask) should be used to limit exposure.

SECTION 7 - HANDLING AND STORAGE

Usage Precautions:

No applicable information has been found.

Storage Precautions:

Store in a cool dry area. Protect from freezing and extreme heat. Keep out of reach of children.

SECTION 8 - EXPOSURE CONTROLS, PERSONAL PROTECTION

Respiratory Protection:

No respiratory irritation data exist. This is a personal care product safe for consumers and other users under normal and reasonably foreseen use.

Ventilation:

No special ventilation requirements exist.

Protective Clothing:

Protective gloves, aprons and other clothing to prevent skin contact. Avoid prolonged contact with skin and clothing.

Eye Protection:

Use safety glasses or splash shield if splash hazards exist.

Other Precautions:

Wash hands thoroughly after handling product, before eating, smoking or drinking.

SECTION 9 - PHYSICAL AND CHEMICAL PROPERTIES

Color, Odor and Appearance: White, Fruit Fragrance, Thick Cream. **Physical State:** Cream

pH (at 25°C): 1.3-1.9. **Flash Point:** N/A. **Vapor Density (air = 1):** N/A

Melting Point: N/A. **Boiling Point:** N/A. **Solubility in Water:** Soluble.

Specific Gravity: Approx. 1. **Evaporation Rate (Butyl Acetate = 1):** N/A

SECTION 10 - STABILITY AND REACTIVITY

Stability:

Stable

Conditions to Avoid:

Slightly reactive with oxidizing and reducing materials, acids, alkalis. Avoid extreme heat and freezing.

Other Recommendations:

None

SECTION 11 - TOXICOLOGICAL INFORMATION

Health Warnings:

May cause skin or eye irritation.

Chronic Effects:

Finished product is not expected to have chronic health effects.

Other Toxic Effects of Humans:

Slightly hazardous if ingested.

SECTION 12 - ECOLOGICAL INFORMATION

Ecotoxicity:

This product is expected to be safe for the environment at the concentration levels present in case of accidental spillage. Large quantities should not be discharged in waterways to prevent pollution of waterways.

Degradability:

Possible hazardous short term degradation products are not likely; however, long term degradation products may arise. The products of degradation are less toxic than the product itself.

SECTION 13 - DISPOSAL CONSIDERATIONS

Waste Disposal Method:

Disposal should be in accordance with Federal, State and Local regulations. Do not dispose of in waterways, drains, sewers or in soil.

SECTION 14 - TRANSPORTATION INFORMATION

Finished packaged product transported by ground (DOT): Non-hazardous

Finished packaged product transported by vessel (IMDG): Non-hazardous

Finished packaged product transported by air (IATA): Non-hazardous

SECTION 15 - REGULATORY INFORMATION

Wash hands thoroughly after handling product, before eating, smoking or drinking.

SECTION 9 - PHYSICAL AND CHEMICAL PROPERTIES

Color, Odor and Appearance: White Cream, Fruit Fragrance, Cream . **Physical State:** Cream

pH (at 25°C): 3.5 - 4.5. **Flash Point:** N/A. **Vapor Density (air = 1):** Greater than 1

Melting Point: N/A. **Boiling Point:** N/A. **Solubility in Water:** Soluble.

Specific Gravity: Approx. 1. **Evaporation Rate (water = 1):** Less than 1

SECTION 10 - STABILITY AND REACTIVITY

Stability:

Stable

Conditions to Avoid:

Slightly reactive with oxidizing and reducing materials, acids, alkalis. Avoid extreme heat and freezing.

Other Recommendations:

None

SECTION 11 - TOXICOLOGICAL INFORMATION

Health Warnings:

May cause skin or eye irritation.

Chronic Effects:

Finished product is not expected to have chronic health effects.

Other Toxic Effects of Humans:

Slightly hazardous if ingested.

SECTION 12 - ECOLOGICAL INFORMATION

Ecotoxicity:

This product is expected to be safe for the environment at the concentration levels present in case of accidental spillage. Large quantities should not be discharged in waterways to prevent pollution of waterways.

Degradability:

Possible hazardous short term degradation products are not likely; however, long term degradation products may arise. The products of degradation are less toxic than the product itself.

SECTION 13 - DISPOSAL CONSIDERATIONS

Waste Disposal Method:

Disposal should be in accordance with Federal, State and Local regulations. Do not dispose of in waterways, drains, sewers or in soil.

SECTION 14 - TRANSPORTATION INFORMATION

Finished packaged product transported by ground (DOT): Non-hazardous

Finished packaged product transported by vessel (IMDG): Non-hazardous

Finished packaged product transported by air (IATA): Non-hazardous

SECTION 15 - REGULATORY INFORMATION

Regulated as a Cosmetic and/or Drug under FDA (US), HBP (Canada), Cosmetics Directive (EU), MHW (Japan) and MOH (China).

US Federal:

The product described in this MSDS is regulated under the FDA Cosmetics Act and is safe to use as per directions on container, box or accompanying literature.

United States of America:

California Prop 65:

This product is not subject to warning labeling under California Proposition 65.

Other:

Fragrances/Perfumes contained within the products covered under this MSDS comply with appropriate IFRA guidance.

SECTION 16 - OTHER INFORMATION

DISCLAIMER:

This MSDS is intended to provide a brief summary of our knowledge and guidance regarding the use of this material. The information contained here has been compiled from sources considered by Diora Professionnel to be dependable and is accurate to the best of the company's knowledge. It is not meant to be an all-inclusive document on worldwide hazard communication regulations.

This information is offered in good faith. Each user of this material needs to evaluate the conditions of use and design the appropriate protective mechanisms to prevent employee exposures, property damage or release to the environment. Diora Professionnel assumed no responsibility for injury to the recipient or third persons, or for any damage to any property resulting from misuse of the product.

Material Safety Data Sheet (MSDS)

| SECTION 1 - CHEMICAL PRODUCT AND COMPANY IDENTIFICATION |
|--|
| Product Name: Keratherapy Brazilian Keratin Renewal System: Keratin Infused Moisture Shampoo |
| Company Identification: Developed for and Distributed by: Diora Professionnel, LLC 1037 NW 3rd Street Hallandale Beach, Florida 33009 Telephone: 877-267-9111 |
| Emergency Contact: In case of medical emergencies, please contact your local poison control center. Transportation Emergency Contact: Customer Support Line 877-267-9111 |

| SECTION 2 - COMPOSITION AND INGREDIENTS INFORMATION |
|---|
| Ingredients: Aqua, Sodium C14-16 Olefin Sulfonate, Glycol Distearate, Laureth-4, Cocamidopropyl Betaine, Acrylates/Steareth-20 Methacrylate Copolymer, Lauramide MEA, Polyquaternium-7, Cocodimonium Hydroxypropyl Hydrolysed Keratin, Glycerin, Aloe Barbadensis Leaf Extract, Fragrance, Benzyl Benzoate, Citronellol, d-Limonene, Guar Hydroxypropyltrimonium Chloride, Methylchloroisothiazolinone, Methylisothiazolinone, Citric Acid. |
| Hazardous Ingredients: None |

| SECTION 3 - HAZARDS IDENTIFICATION |
|--|
| EMERGENCY OVERVIEW: This is a personal care or cosmetic product that is safe for consumers and other users under intended and reasonable foreseeable use. Additional information and/or Toxicological endpoints is available from the supplier upon request. |
| POTENTIAL HEALTH EFFECTS: Eye: Contact may cause irritation. Some redness and/or stinging may occur. |
| Skin: Not expected to be irritating, sensitizing, photoallergenic or phototoxic when used as intended. If irritation occurs following intended use or prolonged contact it is expected to be mild and transient. |
| Inhalation: Not expected to be irritating to the respiratory system. Not volatile therefore limited inhalation exposure anticipated. |
| Ingestion: Do not ingest. May cause gastrointestinal irritation with nausea and vomiting if swallowed. |

SECTION 4 - EMERGENCY AND FIRST AID MEASURES

Eye:

Immediately flush eyes with running water for at least 15 minutes. If discomfort irritation persists, seek medical attention.

Skin Problem:

Discontinue use of product. Rinse affected area with cold water to relieve discomfort. If irritation persist, seek medical attention.

Inhalation:

Discontinue use and seek fresh air. If breathing is difficult or not breathing, seek immediately medical attention.

Ingestion:

Do not induce vomiting unless directed by a medical personnel. Seek immediate medical attention.

SECTION 5 - FIRE FIGHTING MEASURES

Flammability Classification:

Non-Flammable

Flash Point:

Unknown

Extinguishing Media:

Water spray, foam, carbon dioxide, dry chemical.

Explosion Hazard:

None

Fire Fighting Instructions:

No special fire fighting instructions. Water spray, foam, carbon dioxide, dry chemical.

SECTION 6 - ACCIDENTAL RELEASE MEASURES

For Small Spills:

Absorb liquid with inert material (dry sand or soil) and scrub area with detergent and water. Dispose of spilled substance in appropriate container.

For Large Spills:

Dike or other containment method to keep material from reaching waterway. Remove dike material to appropriate container. Clean area with detergent, solvents and/or water. Use of personal protection and equipment (Gloves, Safety Glass and Respiratory Mask) should be used to limit exposure.

SECTION 7 - HANDLING AND STORAGE

Usage Precautions:

No applicable information has been found.

Storage Precautions:

Store in a cool dry area. Protect from freezing and extreme heat. Keep out of reach of children.

SECTION 8 - EXPOSURE CONTROLS, PERSONAL PROTECTION

Respiratory Protection:

No respiratory irritation data exist. This is a personal care product safe for consumers and other users under normal and reasonably foreseen use.

Ventilation:

No special ventilation requirements exist.

Protective Clothing:

Protective gloves, aprons and other clothing to prevent skin contact. Avoid prolonged contact with skin and clothing.

Eye Protection:

Use safety glasses or splash shield if splash hazards exist.

Other Precautions:

Wash hands thoroughly after handling product, before eating, smoking or drinking.

SECTION 9 - PHYSICAL AND CHEMICAL PROPERTIES

Color, Odor and Appearance: Clear White Liquid, Fruit Fragrance. **Physical State:** Liquid

pH (at 25°C): 4.5 - 5.5. **Flash Point:** N/A. **Vapor Density (air = 1):** Greater than 1

Melting Point: N/A. **Boiling Point:** N/A. **Solubility in Water:** Soluble.

Specific Gravity: Approx. 1. **Evaporation Rate (water = 1):** Less than 1

SECTION 10 - STABILITY AND REACTIVITY

Stability:

Stable

Conditions to Avoid:

Slightly reactive with oxidizing and reducing materials, acids, alkalis. Avoid extreme heat and freezing.

Other Recommendations:

None

SECTION 11 - TOXICOLOGICAL INFORMATION

Health Warnings:

May cause skin or eye irritation.

Chronic Effects:

Finished product is not expected to have chronic health effects.

Other Toxic Effects of Humans:

Slightly hazardous if ingested.

SECTION 12 - ECOLOGICAL INFORMATION

Ecotoxicity:

This product is expected to be safe for the environment at the concentration levels present in case of accidental spillage. Large quantities should not be discharged in waterways to prevent pollution of waterways.

Degradability:

Possible hazardous short term degradation products are not likely; however, long term degradation products may arise. The products of degradation are less toxic than the product itself.

SECTION 13 - DISPOSAL CONSIDERATIONS

Waste Disposal Method:

Disposal should be in accordance with Federal, State and Local regulations. Do not dispose of in waterways, drains, sewers or in soil.

SECTION 14 - TRANSPORTATION INFORMATION

Finished packaged product transported by ground (DOT): Non-hazardous

Finished packaged product transported by vessel (IMDG): Non-hazardous

Finished packaged product transported by air (IATA): Non-hazardous

SECTION 15 - REGULATORY INFORMATION

Regulated as a Cosmetic and/or Drug under FDA (US), HBP (Canada), Cosmetics Directive (EU), MHW (Japan) and MOH (China).

US Federal:

The product described in this MSDS is regulated under the FDA Cosmetics Act and is safe to use as per directions on container, box or accompanying literature.

United States of America:

California Prop 65:

This product is not subject to warning labeling under California Proposition 65.

Other:

Fragrances/Perfumes contained within the products covered under this MSDS comply with appropriate IFRA guidance.

SECTION 16 - OTHER INFORMATION

DISCLAIMER:

| Emergency Contact: In case of medical emergencies, please contact your local poison control center. Transportation Emergency Contact: Customer Support Line 877-267-9111 |

| SECTION 2 - COMPOSITION AND INGREDIENTS INFORMATION |
|---|
| Ingredients: Aqua, Cetyl Alcohol, Hydroxyethyl Cellulose, Glycerin, Mineral Oil, Hydrolyzed Keratin, Stearamidopropyl Dimethylamine, Silk Amino Acids, Hydrolyzed Collagen, Kerazen, Hydrolyzed Wheat Protein, Argania Spinosa Kernel Oil, Polyquaternium-11, Phenyl Dimethicone, Cyclopentasiloxane, Dimethicol, Cyclomethicone, Fragrance, Acetic Acid, Glutamine, Sodium PCA, Betaine, Sorbitol, Glycine, Alanine, Proline, Serine, Threonine, Arginine, Lysine, Glutamic Acid, Linum Usitassimum, Seed Oil, Phenoxyethanol, Ethylhexylglycerin, Edta. |
| Hazardous Ingredients: None |

| SECTION 3 - HAZARDS IDENTIFICATION |
|---|
| EMERGENCY OVERVIEW: This is a professional use product to be applied by a licensed professional in a licensed facility in accordance with supplied instructions. Care should be taken to follow the product application and storage instructions thoroughly. Slightly hazardous in case of skin contact (sensitizer), eye contact (irritant) or inhalation. Adequate ventilation and/or protective apparatus are recommended in cases of prolonged exposure. Additional information and/or Toxicological endpoints is available from the supplier upon request. |
| POTENTIAL HEALTH EFFECTS: Eye: Contact may cause irritation. Some redness and/or stinging may occur. |
| Skin: May cause skin irritation. Some redness and/or stinging may occur. |
| Inhalation: May cause respiratory irritation. Persons with respiratory illness should avoid prolonged exposure. |
| Ingestion: Do not ingest. May cause gastrointestinal irritation with nausea and vomiting if swallowed. |

SECTION 4 - EMERGENCY AND FIRST AID MEASURES

Eye:

Immediately flush eyes with running water for at least 15 minutes and seek medical attention.

Skin Problem:

Wash with soap and water and cover affected area with a emollient. If irritation persist, seek medical attention.

Inhalation:

Discontinue use and seek fresh air. If breathing is difficult or not breathing, seek immediately medical attention.

Ingestion:

Do not induce vomiting unless directed by a medical personnel. Seek immediate medical attention.

SECTION 5 - FIRE FIGHTING MEASURES

Flammability Classification:

Non-Flammable

Flash Point:

Unknown

Extinguishing Media:

Water spray, foam, carbon dioxide, dry chemical.

Explosion Hazard:

None

Fire Fighting Instructions:

No special fire fighting instructions. Water spray, foam, carbon dioxide, dry chemical.

SECTION 6 - ACCIDENTAL RELEASE MEASURES

For Small Spills:

Absorb liquid with inert material (dry sand or soil) and scrub area with detergent and water. Dispose of spilled substance in appropriate container.

For Large Spills:

Dike or other containment method to keep material from reaching waterway. Remove dike material to appropriate container. Clean area with detergent, solvents and/or water. Use of personal protection and equipment (Gloves, Safety Glass and Respiratory Mask) should be used to limit exposure.

SECTION 7 - HANDLING AND STORAGE

Usage Precautions:

Keep container closed. Use only with adequate ventilation. Avoid Breathing vapor or mist, keep away from heat sparks and flame. Wash hands thoroughly after handling.

Storage Precautions:

Store in a cool dry area. Protect from freezing and extreme heat. Keep out of reach of children. Keep container tightly closed and sealed until ready for use.

SECTION 8 - EXPOSURE CONTROLS, PERSONAL PROTECTION

Respiratory Protection:

If respiratory risk exist or prolonged exposure the use of a air-purifying respiratory mask is recommended.

Ventilation:

Use only in well ventilated area. Normal salon ventilation based on OSHA regulations (1910.1048c).

Protective Clothing:

Protective gloves resistant to chemical. Nitrile rubber gloves recommended.

Eye Protection:

Use safety glasses or splash shield.

Other Precautions:

Wash hands thoroughly after handling product, before eating, smoking or drinking.

SECTION 9 - PHYSICAL AND CHEMICAL PROPERTIES

Color, Odor and Appearance: White, Fruit Fragrance, Cream. **Physical State:** Cream

pH (at 25°C): 1.0 - 2.0. **Flash Point:** N/A. **Vapor Density (air = 1):** Greater than 1

Melting Point: N/A. **Boiling Point:** N/A. **Solubility in Water:** Slightly Soluble.

Specific Gravity: Approx. 1. **Evaporation Rate (water = 1):** Less than 1

SECTION 10 - STABILITY AND REACTIVITY

Stability:

Stable

Conditions to Avoid:

Slightly reactive with oxidizing and reducing materials, acids, alkalis. Avoid extreme heat and freezing.

Other Recommendations:

None

SECTION 11 - TOXICOLOGICAL INFORMATION

Health Warnings:

Skin, eye and nasal irritation may occur.

Chronic Effects:

May have chronic effects if improper use.

Other Toxic Effects of Humans:

Slightly hazardous if ingested.

SECTION 12 - ECOLOGICAL INFORMATION

Ecotoxicity:

This product is expected to be safe for the environment at the concentration levels present in case of accidental spillage. Large quantities should not be discharged in waterways to prevent pollution of waterways.

Degradability:

Possible hazardous short term degradation products are not likely; however, long term degradation products may arise. The products of degradation are less toxic than the product itself.

SECTION 13 - DISPOSAL CONSIDERATIONS

Waste Disposal Method:

Disposal should be in accordance with Federal, State and Local regulations. Do not dispose of in waterways, drains, sewers or in soil.

SECTION 14 - TRANSPORTATION INFORMATION

Finished packaged product transported by ground (DOT): Non-hazardous

Finished packaged product transported by vessel (IMDG): Non-hazardous

Explosion Hazard:

None

Fire Fighting Instructions:

No special fire fighting instructions. Water spray, foam, carbon dioxide, dry chemical.

SECTION 6 - ACCIDENTAL RELEASE MEASURES

For Small Spills:

Absorb liquid with inert material (dry sand or soil) and scrub area with detergent and water. Dispose of spilled substance in appropriate container.

For Large Spills:

Dike or other containment method to keep material from reaching waterway. Remove dike material to appropriate container. Clean area with detergent, solvents and/or water. Use of personal protection and equipment (Gloves, Safety Glass and Respiratory Mask) should be used to limit exposure.

SECTION 7 - HANDLING AND STORAGE

Usage Precautions:

No applicable information has been found.

Storage Precautions:

Store in a cool dry area. Protect from freezing and extreme heat. Keep out of reach of children.

SECTION 8 - EXPOSURE CONTROLS, PERSONAL PROTECTION

Respiratory Protection:

No respiratory irritation data exist. This is a personal care product safe for consumers and other users under normal and reasonably foreseen use.

Ventilation:

No special ventilation requirements exist.

Protective Clothing:

Protective gloves, aprons and other clothing to prevent skin contact. Avoid prolonged contact with skin and clothing.

Eye Protection:

Use safety glasses or splash shield if splash hazards exist.

Other Precautions:

Wash hands thoroughly after handling product, before eating, smoking or drinking.

SECTION 9 - PHYSICAL AND CHEMICAL PROPERTIES

Color, Odor and Appearance: Orange, Fruit Fragrance, Cream . **Physical State:** Viscous Cream

pH (at 25°C): 4.5 - 5.5. **Flash Point:** N/A. **Vapor Density (air = 1):** Greater than 1

Melting Point: N/A. **Boiling Point:** 100 Deg C. **Solubility in Water:** Partially Soluble.

Specific Gravity: 0.98 - 1.04 gm/cm³. **Evaporation Rate (water = 1):** Less than 1

SECTION 10 - STABILITY AND REACTIVITY

Stability:

Stable

Conditions to Avoid:

Slightly reactive with oxidizing and reducing materials, acids, alkalis. Avoid extreme heat and freezing.

Other Recommendations:

None

SECTION 11 - TOXICOLOGICAL INFORMATION

Health Warnings:

May cause skin or eye irritation.

Chronic Effects:

Finished product is not expected to have chronic health effects.

Other Toxic Effects of Humans:

Slightly hazardous if ingested.

SECTION 12 - ECOLOGICAL INFORMATION

Ecotoxicity:

This product is expected to be safe for the environment at the concentration levels present in case of accidental spillage. Large quantities should not be discharged in waterways to prevent pollution of waterways.

Degradability:

Possible hazardous short term degradation products are not likely; however, long term degradation products may arise. The products of degradation are less toxic than the product itself.

SECTION 13 - DISPOSAL CONSIDERATIONS

Waste Disposal Method:

Disposal should be in accordance with Federal, State and Local regulations. Do not dispose of in waterways, drains, sewers or in soil.

SECTION 14 - TRANSPORTATION INFORMATION

Finished packaged product transported by ground (DOT): Non-hazardous

Finished packaged product transported by vessel (IMDG): Non-hazardous

Finished packaged product transported by air (IATA): Non-hazardous

SECTION 15 - REGULATORY INFORMATION

Regulated as a Cosmetic and/or Drug under FDA (US), HBP (Canada), Cosmetics Directive (EU), MHW (Japan) and MOH (China).

US Federal:

The product described in this MSDS is regulated under the FDA Cosmetics Act and is safe to use as per directions on container, box or accompanying literature.

United States of America:

California Prop 65:

This product is not subject to warning labeling under California Proposition 65.

Other:

Fragrances/Perfumes contained within the products covered under this MSDS comply with appropriate IFRA guidance.

SECTION 16 - OTHER INFORMATION

DISCLAIMER:

This MSDS is intended to provide a brief summary of our knowledge and guidance regarding the use of this material. The information contained here has been compiled from sources considered by Diora Professionnel to be dependable and is accurate to the best of the company's knowledge. It is not meant to be an all-inclusive document on worldwide hazard communication regulations.

This information is offered in good faith. Each user of this material needs to evaluate the conditions of use and design the appropriate protective mechanisms to prevent employee exposures, property damage or release to the environment. Diora Professionnel assumed no responsibility for injury to the recipient or third persons, or for any damage to any property resulting from misuse of the product.

Material Safety Data Sheet (MSDS)

| SECTION 1 - CHEMICAL PRODUCT AND COMPANY IDENTIFICATION |
|---|
| Product Name: Keratherapy Keratin Infused Color Protect Shampoo |
| Company Identification: Developed for and Distributed by: Diora Professionnel, LLC 1037 NW 3rd Street Hallandale Beach, Florida 33009 Telephone: 1-954-628-5163 |
| Emergency Contact: In case of medical emergencies, please contact your local poison control center. Transportation Emergency Contact: Customer Support Line: ChemTel 1-813-248-0585 |

| SECTION 2 - COMPOSITION AND INGREDIENTS INFORMATION |
|---|
| Ingredients: Aqua, Sodium Cocoyl Isethionate, Disodium Laureth Sulfosuccinate, Sodium Lauroyl Sarcosinate, Sodium Lauryl Sulfoacetate, Cocamidopropyl Betaine, Polyquaternium-7, Keratin Amino Acids, Hydrolyzed Keratin, Parfum, Cocamide MIPA, Glycerin, Rubus Idaeus Seed Oil, PEG-120 Methyl Glucose Dioleate, Decyl Glucoside, Guar Hydroxypropyltrimonium Chloride, Cinnamidopropyltrimonium Chloride, Citric Acid, Polyquaternium-10, DMDM Hydantoin, CI 15985, CI 19140, Sodium Hydroxide, Allergen: Linalool, Hexyl Cinnamal, Limonene |
| Hazardous Ingredients: None |

| SECTION 3 - HAZARDS IDENTIFICATION |
|--|
| EMERGENCY OVERVIEW: This is a personal care or cosmetic product that is safe for consumers and other users under intended and reasonable foreseeable use. Additional information and/or Toxicological endpoints is available from the supplier upon request. |
| POTENTIAL HEALTH EFFECTS: Eye: Contact may cause irritation. Some redness and/or stinging may occur. |
| Skin: Not expected to be irritating, sensitizing, photoallergenic or phototoxic when used as intended. If irritation occurs following intended use or prolonged contact it is expected to be mild and transient. |
| Inhalation: Not expected to be irritating to the respiratory system. Not volatile therefore limited inhalation exposure anticipated. |
| Ingestion: Do not ingest. May cause gastrointestinal irritation with nausea and vomiting if swallowed. |

SECTION 4 - EMERGENCY AND FIRST AID MEASURES

Eye:

Immediately flush eyes with running water for at least 15 minutes. If discomfort irritation persists, seek medical attention.

Skin Problem:

Discontinue use of product. Rinse affected area with cold water to relieve discomfort. If irritation persist, seek medical attention.

Inhalation:

Discontinue use and seek fresh air. If breathing is difficult or not breathing, seek immediately medical attention.

Ingestion:

Do not induce vomiting unless directed by a medical personnel. Seek immediate medical attention.

SECTION 5 - FIRE FIGHTING MEASURES

Flammability Classification:

Non-Flammable

Flash Point:

Unknown

Extinguishing Media:

Water spray, foam, carbon dioxide, dry chemical.

Explosion Hazard:

None

Fire Fighting Instructions:

No special fire fighting instructions. Water spray, foam, carbon dioxide, dry chemical.

SECTION 6 - ACCIDENTAL RELEASE MEASURES

For Small Spills:

Absorb liquid with inert material (dry sand or soil) and scrub area with detergent and water. Dispose of spilled substance in appropriate container.

For Large Spills:

Dike or other containment method to keep material from reaching waterway. Remove dike material to appropriate container. Clean area with detergent, solvents and/or water. Use of personal protection and equipment (Gloves, Safety Glass and Respiratory Mask) should be used to limit exposure.

SECTION 7 - HANDLING AND STORAGE

Usage Precautions:

No applicable information has been found.

Storage Precautions:

Store in a cool dry area. Protect from freezing and extreme heat. Keep out of reach of children.

SECTION 8 - EXPOSURE CONTROLS, PERSONAL PROTECTION

Respiratory Protection:

No respiratory irritation data exist. This is a personal care product safe for consumers and other users under normal and reasonably foreseen use.

Ventilation:

No special ventilation requirements exist.

Protective Clothing:

Protective gloves, aprons and other clothing to prevent skin contact. Avoid prolonged contact with skin and clothing.

Eye Protection:

Use safety glasses or splash shield if splash hazards exist.

Other Precautions:

Wash hands thoroughly after handling product, before eating, smoking or drinking.

SECTION 9 - PHYSICAL AND CHEMICAL PROPERTIES

Color, Odor and Appearance: Orange Pearled, Fruit Fragrance, Liquid . **Physical State:** Viscous Liquid

pH (at 25°C): 5.0 - 5.5. **Flash Point:** N/A. **Vapor Density (air = 1):** Greater than 1

Melting Point: N/A. **Boiling Point:** 100 Deg C. **Solubility in Water:** Soluble.

Specific Gravity: 1.00 - 1.04 gm/cm3. **Evaporation Rate (water = 1):** Less than 1

SECTION 10 - STABILITY AND REACTIVITY

Stability:

Stable

Conditions to Avoid:

Slightly reactive with oxidizing and reducing materials, acids, alkalis. Avoid extreme heat and freezing.

Other Recommendations:

None

SECTION 11 - TOXICOLOGICAL INFORMATION

Health Warnings:

May cause skin or eye irritation.

Chronic Effects:

Finished product is not expected to have chronic health effects.

Other Toxic Effects of Humans:

Slightly hazardous if ingested.

SECTION 12 - ECOLOGICAL INFORMATION

Ecotoxicity:

This product is expected to be safe for the environment at the concentration levels present in case of accidental spillage. Large quantities should not be discharged in waterways to prevent pollution of waterways.

Degradability:

Possible hazardous short term degradation products are not likely; however, long term degradation products may arise. The products of degradation are less toxic than the product itself.

SECTION 13 - DISPOSAL CONSIDERATIONS

Waste Disposal Method:

Disposal should be in accordance with Federal, State and Local regulations. Do not dispose of in waterways, drains, sewers or in soil.

SECTION 14 - TRANSPORTATION INFORMATION

Finished packaged product transported by ground (DOT): Non-hazardous

Finished packaged product transported by vessel (IMDG): Non-hazardous

Finished packaged product transported by air (IATA): Non-hazardous

SECTION 15 - REGULATORY INFORMATION

Regulated as a Cosmetic and/or Drug under FDA (US), HBP (Canada), Cosmetics Directive (EU), MHW (Japan) and MOH (China).

US Federal:

The product described in this MSDS is regulated under the FDA Cosmetics Act and is safe to use as per directions on container, box or accompanying literature.

United States of America:

California Prop 65:

This product is not subject to warning labeling under California Proposition 65.

| Emergency Contact: In case of medical emergencies, please contact your local poison control center. Transportation Emergency Contact: Customer Support Line: ChemTel 1-813-248-0585 |

| SECTION 2 - COMPOSITION AND INGREDIENTS INFORMATION |
|---|
| Ingredients: Deionized Water (Aqua), Glyceryl Stearate, Peg 100 Stearate, Dimethicone, Polyquaternium-37, Propylene Glycol Dicaprylate/Dicaprate, PPG-1 Trideceth-6, Caprylyl Glycol, Argania Spinosa (Argan) Oil, Hydrolyzed Keratin, Hydrolyzed Collagen, Acetamide MEA, Panthenol, Propylene Glycol, Sorbitol, Sodium Cocoyl Collagen Amino Acid, Cocoyl Sarcosine, Wheat Germ Acid, Triticum Vulgare (Wheat) Germ Oil, Linolenic Acid, Sulfur, Polysorbate 80, Oleth-10, Simmondsia Chinensis (Jojoba) Seed Oil, Tocopheryl Acetate, Hydrolyzed Glycosaminoglycans, Oxoacetamide Carbocysteine, Oxoacetamide Amino Acids, Methylisothiazolinone, Benzyl Salicylate, Hexyl Cinnamal, Limonene, Linalool, Hydroxyisohexyl 3-Cyclohexene Carboxaldehyde (Lyril), Butylphenyl Methylpropional (Lilial), Hydroxycitronellal Benzyl Benzoate, Citronellol, Fragrance. |
| Hazardous Ingredients: None |

| SECTION 3 - HAZARDS IDENTIFICATION |
|--|
| EMERGENCY OVERVIEW: This is a personal care or cosmetic product that is safe for consumers and other users under intended and reasonable foreseeable use. Additional information and/or Toxicological endpoints is available from the supplier upon request. |
| POTENTIAL HEALTH EFFECTS: Eye: Contact may cause irritation. Some redness and/or stinging may occur. |
| Skin: Not expected to be irritating, sensitizing, photoallergenic or phototoxic when used as intended. If irritation occurs following intended use or prolonged contact it is expected to be mild and transient. |
| Inhalation: Not expected to be irritating to the respiratory system. Not volatile therefore limited inhalation exposure anticipated. |
| Ingestion: Do not ingest. May cause gastrointestinal irritation with nausea and vomiting if swallowed. |

SECTION 4 - EMERGENCY AND FIRST AID MEASURES

Eye:

Immediately flush eyes with running water for at least 15 minutes. If discomfort irritation persists, seek medical attention.

Skin Problem:

Discontinue use of product. Rinse affected area with cold water to relieve discomfort. If irritation persist, seek medical attention.

Inhalation:

Discontinue use and seek fresh air. If breathing is difficult or not breathing, seek immediately medical attention.

Ingestion:

Do not induce vomiting unless directed by a medical personnel. Seek immediate medical attention.

SECTION 5 - FIRE FIGHTING MEASURES

Flammability Classification:

Non-Flammable

Flash Point:

Unknown

Extinguishing Media:

Water spray, foam, carbon dioxide, dry chemical.

Explosion Hazard:

None

Fire Fighting Instructions:

Contact emergency personnel. Use self-contained breathing apparatus and full protective gear, if large quantities of product are involved.

SECTION 6 - ACCIDENTAL RELEASE MEASURES

For Small Spills:

Absorb liquid with inert material (dry sand or soil) and scrub area with detergent and water. Dispose of spilled substance in appropriate container.

For Large Spills:

Dike or other containment method to keep material from reaching waterway. Remove dike material to appropriate container. Clean area with detergent, solvents and/or water. Use of personal protection and equipment (Gloves, Safety Glass and Respiratory Mask) should be used to limit exposure.

SECTION 7 - HANDLING AND STORAGE

Usage Precautions:

No applicable information has been found.

Storage Precautions:

Store in a cool dry area. Protect from freezing and extreme heat. Keep out of reach of children.

SECTION 8 - EXPOSURE CONTROLS, PERSONAL PROTECTION

Respiratory Protection:

No respiratory irritation data exist. This is a personal care product safe for consumers and other users under normal and reasonably foreseen use.

Ventilation:

No special ventilation requirements exist.

Protective Clothing:

Protective gloves, aprons and other clothing to prevent skin contact. Avoid prolonged contact with skin and clothing.

Eye Protection:

Use safety glasses or splash shield if splash hazards exist.

Other Precautions:

Wash hands thoroughly after handling product, before eating, smoking or drinking.

SECTION 9 - PHYSICAL AND CHEMICAL PROPERTIES

Color, Odor and Appearance: White, Fruit Fragrance, Thick Cream. **Physical State:** Cream

pH (at 25°C): 1.3-1.9. **Flash Point:** N/A. **Vapor Density (air = 1):** N/A

Melting Point: N/A. **Boiling Point:** N/A. **Solubility in Water:** Soluble.

Specific Gravity: Approx. 1. **Evaporation Rate (Butyl Acetate = 1):** N/A

SECTION 10 - STABILITY AND REACTIVITY

Stability:

Stable

Conditions to Avoid:

Slightly reactive with oxidizing and reducing materials, acids, alkalis. Avoid extreme heat and freezing.

Other Recommendations:

None

SECTION 11 - TOXICOLOGICAL INFORMATION

Health Warnings:

May cause skin or eye irritation.

Chronic Effects:

Finished product is not expected to have chronic health effects.

Other Toxic Effects of Humans:

Slightly hazardous if ingested.

SECTION 12 - ECOLOGICAL INFORMATION

Ecotoxicity:

This product is expected to be safe for the environment at the concentration levels present in case of accidental spillage. Large quantities should not be discharged in waterways to prevent pollution of waterways.

Degradability:

Possible hazardous short term degradation products are not likely; however, long term degradation products may arise. The products of degradation are less toxic than the product itself.

SECTION 13 - DISPOSAL CONSIDERATIONS

Waste Disposal Method:

Disposal should be in accordance with Federal, State and Local regulations. Do not dispose of in waterways, drains, sewers or in soil.

SECTION 14 - TRANSPORTATION INFORMATION

Finished packaged product transported by ground (DOT): Non-hazardous

Finished packaged product transported by vessel (IMDG): Non-hazardous

Finished packaged product transported by air (IATA): Non-hazardous

SECTION 15 - REGULATORY INFORMATION

Regulated as a Cosmetic and/or Drug under FDA (US), HBP (Canada), Cosmetics Directive (EU), MHW (Japan) and MOH (China).

| SECTION 2 - COMPOSITION AND INGREDIENTS INFORMATION |
|--|
| Isobutane, Propane, Alcohol Denat, Aluminum Starch Octenylsuccinate, Keratin Amino Acids, Panthenol, Parfum, Isopropyl Myristate, Silica, Allergens: Alpha-Isomethyl Ionone, Butylphenyl Methylpropional, Coumarin, Hexyl Cinnamal, Limonene, Linalool |
| Hazardous Ingredients: Ethyl Alcohol CAS# 64-17-5 <15% w/w. Propane CAS# 74-98-6 <15% w/w. Isobutane CAS# 75-28-5 <70% w/w. |

| SECTION 3 - HAZARDS IDENTIFICATION |
|--|
| EMERGENCY OVERVIEW: This is a personal care or cosmetic product that is safe for consumers and other users under intended and reasonable foreseeable use. Additional information and/or Toxicological endpoints is available from the supplier upon request. |
| POTENTIAL HEALTH EFFECTS: Eye: Contact may cause irritation. Some redness and/or stinging may occur. |
| Skin: Not expected to be irritating, sensitizing, photoallergenic or phototoxic when used as intended. If irritation occurs following intended use or prolonged contact it is expected to be mild and transient. |
| Inhalation: May cause irritation of the respiratory system. |
| Ingestion: Do not ingest. May cause gastrointestinal irritation with nausea and vomiting if swallowed. |

SECTION 4 - EMERGENCY AND FIRST AID MEASURES

Eye:

Immediately flush eyes with running water for at least 15 minutes. If discomfort irritation persists, seek medical attention.

Skin Problem:

Discontinue use of product. Wash affected area with soap and water to relieve discomfort. If irritation persist, seek medical attention.

Inhalation:

Discontinue use and seek fresh air. If breathing is difficult or not breathing, seek immediately medical attention.

Ingestion:

Do not induce vomiting unless directed by a medical personnel. Seek immediate medical attention.

SECTION 5 - FIRE FIGHTING MEASURES

Flammability Classification:

Flammable

Flash Point:

65° T.O.C.

Extinguishing Media:

Carbon Dioxide (CO2), Dry Chemical for small fires. Foam for large fires

Explosion Hazard:

Flammable, keep away from heat, spark and open flames. Store in a cool well ventilated area.

Fire Fighting Instructions:

CO2, Dry Chemical or Foam to extinguish fires. Addition of water fog will aid in reducing burning. Use NIOSH self-contained breathing apparatus in confined areas. Spray exposed containers with water to reduce fire/explosion risk.

SECTION 6 - ACCIDENTAL RELEASE MEASURES

For Small Spills:

Eliminate all ignition sources, ventilate affected area and clean with a large amount of water.

For Large Spills:

Absorb spill with Non-Flammable absorbent material (granules) and dispose of as hazardous waste.

SECTION 7 - HANDLING AND STORAGE

Usage Precautions:

Do not puncture container, contents under pressure. Spray 8-12 inches from head into dry hair, avoid eye contact.

Storage Precautions:

Store in a cool dry well ventilated area. Do not store at temperatures above 120°. Keep out of reach of children.

SECTION 8 - EXPOSURE CONTROLS, PERSONAL PROTECTION

Respiratory Protection:

No respiratory irritation data exist. This is a personal care product safe for consumers and other users under normal and reasonably foreseen use.

Ventilation:

Ensure adequate ventilation when used.

Protective Clothing:

No protective clothing needed when used as directed.

Eye Protection:

No eye protection needed when used as directed.

Other Precautions:

Wash hands thoroughly after handling product, before eating, smoking or drinking.

SECTION 9 - PHYSICAL AND CHEMICAL PROPERTIES

Color, Odor and Appearance: Milky White Liquid, Fruit Fragrance, Liquid. **Physical State:** Liquid

pH (at 25°C): N/A. **Flash Point:** 65°. **Vapor Density (air = 1):** Not Established

Melting Point: N/A. **Boiling Point:** 175°. **Solubility in Water:** Slightly Soluble.

Specific Gravity: 1.03. **Evaporation Rate (water = 1):** Greater than 1

SECTION 10 - STABILITY AND REACTIVITY

Stability:

Stable under normal conditions

Conditions to Avoid:

Keep away from heat and ignition sources, avoid elevated temperatures and direct sunlight. Keep away from strong oxidizing agents.

Other Recommendations:

None

SECTION 11 - TOXICOLOGICAL INFORMATION

Health Warnings:

May cause skin, respiratory or eye irritation.

Chronic Effects:

Finished product is not expected to have chronic health effects when used as directed. Misuse can cause irritation of the respiratory tract, gastro-intestinal tract, the eyes and skin.

Other Toxic Effects of Humans:

Slightly hazardous if ingested.

SECTION 12 - ECOLOGICAL INFORMATION

Ecotoxicity:

This product is expected to be safe for the environment at the concentration levels present in case of accidental spillage. Large quantities should not be discharged in waterways to prevent pollution of waterways.

Degradability:

Possible hazardous short term degradation products are not likely; however, long term degradation products may arise. The products of degradation are less toxic than the product itself.

SECTION 13 - DISPOSAL CONSIDERATIONS

Waste Disposal Method:

Disposal should be in accordance with Federal, State and Local regulations. Do not dispose of in waterways, drains, sewers or in soil.

SECTION 14 - TRANSPORTATION INFORMATION

Finished packaged product transported by ground (DOT): UN1950; Class 2.1; Aerosols, Flammable

Finished packaged product transported by vessel (IMDG): UN1950; Class 2.1; Aerosols, Flammable

Finished packaged product transported by air (IATA): ID8000; Class 9; Consumer Commodity

SECTION 15 - REGULATORY INFORMATION

Regulated as a Cosmetic and/or Drug under FDA (US), HBP (Canada), Cosmetics Directive (EU), MHW (Japan) and MOH (China).

US Federal:

The product described in this MSDS is regulated under the FDA Cosmetics Act and is safe to use as per directions on container, box or accompanying literature.

United States of America:

California Prop 65:

This product is not subject to warning labeling under California Proposition 65.

Other:

Fragrances/Perfumes contained within the products covered under this MSDS comply with appropriate IFRA guidance.

SECTION 16 - OTHER INFORMATION

DISCLAIMER:

This MSDS is intended to provide a brief summary of our knowledge and guidance regarding the use of this material. The information contained here has been compiled from sources considered by Diora Professionnel to be dependable and is accurate to the best of the company's knowledge. It is not meant to be an all-inclusive document on worldwide hazard communication regulations.

This information is offered in good faith. Each user of this material needs to evaluate the conditions of use and design the appropriate protective mechanisms to prevent employee exposures, property damage or release to the environment. Diora Professionnel assumed no responsibility for injury to the recipient or third persons, or for any damage to any property resulting from misuse of the product.

|---|
| Product Name: Keratherapy Keratin Infused Leave-In Conditioner Spray |
| Company Identification: Developed for and Distributed by: Diora Professionnel, LLC 1037 NW 3rd Street Hallandale Beach, Florida 33009 Telephone: 1-954-628-5163 |
| Emergency Contact: In case of medical emergencies, please contact your local poison control center. Transportation Emergency Contact: Customer Support Line: ChemTel 1-813-248-0585 |

| SECTION 2 - COMPOSITION AND INGREDIENTS INFORMATION |
|---|
| Aqua, Acetamide MEA, Hydrolyzed Keratin, Panthenol, Sorbitol, Sodium Cocoyl Collagen Amino Acid, Cocoyl Sarcosine, Wheat Germ Acid, Triticum Vulgare (Wheat) Germ Oil, Linolenic Acid, Sulfur, Polysorbate 80, Oleth-10, Simmondsia Chinensis (Jojoba) Seed Oil, Tocopheryl Acetate, Hydrolyzed Glycosaminoglycans, Sorbitol, PEG/PPG 18/18 Dimethicone, Quaternium 91, Trideceth 12, Cetrimonium Methosulfate, Cetearyl Alcohol, Amodimethicone, Behentrimonium Methosulfate, C10-40 Isoalkylamidopropylethyldimonium Ethosulfate, Arginine, Glycerin, Cetrimonium Chloride, Cetyl Alcohol, PEG 40, Hydrogenated Castor Extract, Polyquaternium 11, Oleic Acid, Palmitoyl Myristyl Serinate, Fragrance, Hydroxyethyl Cellulose, Polysorbate 20, Citric Acid, Benzyl Benzoate, Benzyl Salicylate, Linalool, Methylchloroisothiazolinone, Methylisothiazolinone. |
| Hazardous Ingredients: None |

| SECTION 3 - HAZARDS IDENTIFICATION |
|--|
| EMERGENCY OVERVIEW: This is a personal care or cosmetic product that is safe for consumers and other users under intended and reasonable foreseeable use. Additional information and/or Toxicological endpoints is available from the supplier upon request. |
| POTENTIAL HEALTH EFFECTS: Eye: Contact may cause irritation. Some redness and/or stinging may occur. |
| Skin: Not expected to be irritating, sensitizing, photoallergenic or phototoxic when used as intended. If irritation occurs following intended use or prolonged contact it is expected to be mild and transient. |
| Inhalation: Not expected to be irritating to the respiratory system. Not volatile therefore limited inhalation exposure anticipated. |
| Ingestion: Do not ingest. May cause gastrointestinal irritation with nausea and vomiting if swallowed. |

SECTION 4 - EMERGENCY AND FIRST AID MEASURES

Eye:

Immediately flush eyes with running water for at least 15 minutes. If discomfort irritation persists, seek medical attention.

Skin Problem:

Discontinue use of product. Rinse affected area with cold water to relieve discomfort. If irritation persist, seek medical attention.

Inhalation:

Discontinue use and seek fresh air. If breathing is difficult or not breathing, seek immediately medical attention.

Ingestion:

Do not induce vomiting unless directed by a medical personnel. Seek immediate medical attention.

SECTION 5 - FIRE FIGHTING MEASURES

Flammability Classification:

Non-Flammable

Flash Point:

Unknown

Extinguishing Media:

Water spray, foam, carbon dioxide, dry chemical.

Explosion Hazard:

None

Fire Fighting Instructions:

No special fire fighting instructions. Water spray, foam, carbon dioxide, dry chemical.

SECTION 6 - ACCIDENTAL RELEASE MEASURES

For Small Spills:

Absorb liquid with inert material (dry sand or soil) and scrub area with detergent and water. Dispose of spilled substance in appropriate container.

For Large Spills:

Dike or other containment method to keep material from reaching waterway. Remove dike material to appropriate container. Clean area with detergent, solvents and/or water. Use of personal protection and equipment (Gloves, Safety Glass and Respiratory Mask) should be used to limit exposure.

SECTION 7 - HANDLING AND STORAGE

Usage Precautions:

No applicable information has been found.

Storage Precautions:

Store in a cool dry area. Protect from freezing and extreme heat. Keep out of reach of children.

SECTION 8 - EXPOSURE CONTROLS, PERSONAL PROTECTION

Respiratory Protection:

No respiratory irritation data exist. This is a personal care product safe for consumers and other users under normal and reasonably foreseen use.

Ventilation:

No special ventilation requirements exist.

Protective Clothing:

Protective gloves, aprons and other clothing to prevent skin contact. Avoid prolonged contact with skin and clothing.

Eye Protection:

Use safety glasses or splash shield if splash hazards exist.

Other Precautions:

Wash hands thoroughly after handling product, before eating, smoking or drinking.

SECTION 9 - PHYSICAL AND CHEMICAL PROPERTIES

Color, Odor and Appearance: Clear White Liquid, Fruit Fragrance, Liquid. **Physical State:** Liquid

pH (at 25°C): 4.5 - 5.2. **Flash Point:** N/A. **Vapor Density (air = 1):** Greater than 1

Melting Point: N/A. **Boiling Point:** N/A. **Solubility in Water:** Soluble.

Specific Gravity: Approx. 1. **Evaporation Rate (water = 1):** Less than 1

SECTION 10 - STABILITY AND REACTIVITY

Stability:

Stable

Conditions to Avoid:

Slightly reactive with oxidizing and reducing materials, acids, alkalis. Avoid extreme heat and freezing.

Other Recommendations:

None

SECTION 11 - TOXICOLOGICAL INFORMATION

Health Warnings:

May cause skin or eye irritation.

Chronic Effects:

Finished product is not expected to have chronic health effects.

Other Toxic Effects of Humans:

Slightly hazardous if ingested.

SECTION 12 - ECOLOGICAL INFORMATION

Ecotoxicity:

This product is expected to be safe for the environment at the concentration levels present in case of accidental spillage. Large quantities should not be discharged in waterways to prevent pollution of waterways.

Degradability:

Possible hazardous short term degradation products are not likely; however, long term degradation products may arise. The products of degradation are less toxic than the product itself.

SECTION 13 - DISPOSAL CONSIDERATIONS

Waste Disposal Method:

Disposal should be in accordance with Federal, State and Local regulations. Do not dispose of in waterways, drains, sewers or in soil.

SECTION 14 - TRANSPORTATION INFORMATION

Finished packaged product transported by ground (DOT): Non-hazardous

Finished packaged product transported by vessel (IMDG): Non-hazardous

Finished packaged product transported by air (IATA): Non-hazardous

SECTION 15 - REGULATORY INFORMATION

Regulated as a Cosmetic and/or Drug under FDA (US), HBP (Canada), Cosmetics Directive (EU), MHW (Japan) and MOH (China).

US Federal:

The product described in this MSDS is regulated under the FDA Cosmetics Act and is safe to use as per directions on container, box or accompanying literature.

United States of America:

California Prop 65:

This product is not subject to warning labeling under California Proposition 65.

Other:

Fragrances/Perfumes contained within the products covered under this MSDS comply with appropriate IFRA guidance.

SECTION 16 - OTHER INFORMATION

DISCLAIMER:

This MSDS is intended to provide a brief summary of our knowledge and guidance regarding the use of this material. The information contained here has been compiled from sources considered by Diora Professionnel to be dependable and is accurate to the best of the company's knowledge. It is not meant to be an all-inclusive document on worldwide hazard communication regulations.

This information is offered in good faith. Each user of this material needs to evaluate the conditions of use and design the appropriate protective mechanisms to prevent employee exposures, property damage or release to the environment. Diora Professionnel assumed no responsibility for injury to the recipient or third persons, or for any damage to any property resulting from misuse of the product.

| SECTION 2 - COMPOSITION AND INGREDIENTS INFORMATION |
|--|
| SD Alcohol 40-B, Hydrofluorocarbon 152a, Dymethyl Ether, VA/Crotonates/Vynyl Neodecanoate Copolymer, Water (Aqua), Aminomethyl Propanol, Phenyl Trimethicone, Ammonium Benzoate, C12-15 Alkyl Benzoate, Hydrolzed Keratin, Ascorbic Acid, Tocopheryl Acetate, Benzophenone-4, Panthenol, Glycerin, Cinchona Succirubra Bark Extract, Cinchona Succirubra Bark Extract, Phyllanthus Emblica Fruit Extract, Vitis Venifera (Grape) Seed Extract, Hedychium Coronarium Root Extract, Musa Sapientum (Banana) Fruit Extract, Berthletia Excelsa Seed Ex, Lycium Barbarum Fruit Extracttract, Carica Papaya (Payaya) Fruit Extract, Theobroma Cacao (Cocoa) Seed Extract, Passiflora Incarnata Flower Extract, Ilex Paraguariensis Leaf Extract, Lycium Barbarum Fruit Extract, Acacia Senegal Flower/Stem Extract, Chamomilla Recutita (Matricaria) Flower Extract, Calendula Officinalis Flower Extract, Centella Asiatica Leaf Extract, Fragrance (Parfum), Fragrance Allergens, Benzyl Alcohol, Coumarin, Benzyl Benzoate, d-Limonene, Linalool |
| Hazardous Ingredients: SD Alcohol 40-B CAS# 64-17-5 <45% w/w. Hydrofluorocarbon 152a CAS# 75-37-6 <35% w/w. Dymethyl Ether CAS# 115-10-6 <15% w/w. Aminomethyl Propanol CAS# 124-68-5 <1% w/w |

| SECTION 3 - HAZARDS INDENTIFICATION |
|--|
| EMERGENCY OVERVIEW: This is a personal care or cosmetic product that is safe for consumers and other users under intended and reasonable foreseeable use. Additional information and/or Toxicological endpoints is available from the supplier upon request. |
| POTENTIAL HEALTH EFFECTS: Eye: Contact may cause irritation. Some redness and/or stinging may occur. |
| Skin: Not expected to be irritating, sensitizing, photoallergenic or phototoxic when used as intended. If irritation occurs following intended use or prolonged contact it is expected to be mild and transient. |
| Inhalation: May cause irritation of the respiratory system. |
| Ingestion: Do not ingest. May cause gastrointestinal irritation with nausea and vomiting if swallowed. |

SECTION 4 - EMERGENCY AND FIRST AID MEASURES

Eye:

Immediately flush eyes with running water for at least 15 minutes. If discomfort irritation persists, seek medical attention.

Skin Problem:

Discontinue use of product. Wash affected area with soap and water to relieve discomfort. If irritation persist, seek medical attention.

Inhalation:

Discontinue use and seek fresh air. If breathing is difficult or not breathing, seek immediately medical attention.

Ingestion:

Do not induce vomiting unless directed by a medical personnel. Seek immediate medical attention.

SECTION 5 - FIRE FIGHTING MEASURES

Flammability Classification:

Flammable

Flash Point:

65° T.O.C.

Extinguishing Media:

Carbon Dioxide (CO2), Dry Chemical for small fires. Foam for large fires

Explosion Hazard:

Flammable, keep away from heat, spark and open flames. Store in a cool well ventilated area.

Fire Fighting Instructions:

CO2, Dry Chemical or Foam to extinguish fires. Addition of water fog will aid in reducing burning. Use NIOSH self-contained breathing apparatus in confined areas. Spray exposed containers with water to reduce fire/explosion risk.

SECTION 6 - ACCIDENTAL RELEASE MEASURES

For Small Spills:

Eliminate all ignition sources, ventilate affected area and clean with a large amount of water.

For Large Spills:

Absorb spill with Non-Flammable absorbent material (granules) and dispose of as hazardous waste.

SECTION 7 - HANDLING AND STORAGE

Usage Precautions:

Do not puncture container, contents under pressure. Spray 8-12 inches from head into dry hair, avoid eye contact.

Storage Precautions:

Store in a cool dry well ventilated area. Do not store at temperatures above 120°. Keep out of reach of children.

SECTION 8 - EXPOSURE CONTROLS, PERSONAL PROTECTION

Respiratory Protection:

No respiratory irritation data exist. This is a personal care product safe for consumers and other users under normal and reasonably foreseen use.

Ventilation:

Ensure adequate ventilation when used.

Protective Clothing:

No protective clothing needed when used as directed.

Eye Protection:

No eye protection needed when used as directed.

Other Precautions:

Wash hands thoroughly after handling product, before eating, smoking or drinking.

SECTION 9 - PHYSICAL AND CHEMICAL PROPERTIES

Color, Odor and Appearance: Clear Liquid, Fruit Fragrance, Liquid. **Physical State:** Liquid

pH (at 25°C): 8.2. **Flash Point:** 65°. **Vapor Density (air = 1):** Not Established

Melting Point: N/A. **Boiling Point:** 175°. **Solubility in Water:** Soluble.

Specific Gravity: 0.87. **Evaporation Rate (water = 1):** Greater than 1

SECTION 10 - STABILITY AND REACTIVITY

Stability:

Stable under normal conditions

Conditions to Avoid:

Keep away from heat and ignition sources, avoid elevated temperatures and direct sunlight. Keep away from strong oxidizing agents.

Other Recommendations:

None

SECTION 11 - TOXICOLOGICAL INFORMATION

Health Warnings:

May cause skin, respiratory or eye irritation.

Chronic Effects:

Finished product is not expected to have chronic health effects when used as directed. Misuse can cause irritation of the respiratory tract, gastro-intestinal tract, the eyes and skin.

Other Toxic Effects of Humans:

Slightly hazardous if ingested.

SECTION 12 - ECOLOGICAL INFORMATION

Ecotoxicity:

This product is expected to be safe for the environment at the concentration levels present in case of accidental spillage. Large quantities should not be discharged in waterways to prevent pollution of waterways.

Degradability:

Possible hazardous short term degradation products are not likely; however, long term degradation products may arise. The products of degradation are less toxic than the product itself.

SECTION 13 - DISPOSAL CONSIDERATIONS

Waste Disposal Method:

Disposal should be in accordance with Federal, State and Local regulations. Do not dispose of in waterways, drains, sewers or in soil.

SECTION 14 - TRANSPORTATION INFORMATION

Finished packaged product transported by ground (DOT): UN1950; Class 2; Aerosols, non-flammable

Finished packaged product transported by vessel (IMDG): UN1950; Class 2; Aerosols, non-flammable

Finished packaged product transported by air (IATA): ID1950; Class 2; Aerosols, non-flammable

SECTION 15 - REGULATORY INFORMATION

Regulated as a Cosmetic and/or Drug under FDA (US), HBP (Canada), Cosmetics Directive (EU), MHW (Japan) and MOH (China).

US Federal:

The product described in this MSDS is regulated under the FDA Cosmetics Act and is safe to use as per directions on container, box or accompanying literature.

Storage Precautions:

Store in a cool dry well ventilated area. Keep out of reach of children.

SECTION 8 - EXPOSURE CONTROLS, PERSONAL PROTECTION

Respiratory Protection:

No respiratory irritation data exist. This is a personal care product safe for consumers and other users under normal and reasonably foreseen use.

Ventilation:

Ensure adequate ventilation when used.

Protective Clothing:

No protective clothing needed when used as directed.

Eye Protection:

No eye protection needed when used as directed.

Other Precautions:

Wash hands thoroughly after handling product, before eating, smoking or drinking.

SECTION 9 - PHYSICAL AND CHEMICAL PROPERTIES

Color, Odor and Appearance: Clear Liquid, Fruit Fragrance, Liquid. **Physical State:** Liquid

pH (at 25°C): N/A. **Flash Point:** 51.8°. **Vapor Density (air = 1):** Not Established

Melting Point: N/A. **Boiling Point:** N/A. **Solubility in Water:** Soluble.

Specific Gravity: Approx. 1. **Evaporation Rate (water = 1):** Less than 1

SECTION 10 - STABILITY AND REACTIVITY

Stability:

Stable under normal conditions

Conditions to Avoid:

Keep away from heat and ignition sources, avoid elevated temperatures and direct sunlight. Keep away from strong oxidizing agents.

Other Recommendations:

None

SECTION 11 - TOXICOLOGICAL INFORMATION

Health Warnings:

May cause skin, respiratory or eye irritation.

Chronic Effects:

Finished product is not expected to have chronic health effects when used as directed. Misuse can cause irritation of the respiratory tract, gastro-intestinal tract, the eyes and skin.

Other Toxic Effects of Humans:

Slightly hazardous if ingested.

SECTION 12 - ECOLOGICAL INFORMATION

Ecotoxicity:

This product is expected to be safe for the environment at the concentration levels present in case of accidental spillage. Large quantities should not be discharged in waterways to prevent pollution of waterways.

Degradability:

Possible hazardous short term degradation products are not likely; however, long term degradation products may arise. The products of degradation are less toxic than the product itself.

SECTION 13 - DISPOSAL CONSIDERATIONS

Waste Disposal Method:

Disposal should be in accordance with Federal, State and Local regulations. Do not dispose of in waterways, drains, sewers or in soil.

SECTION 14 - TRANSPORTATION INFORMATION

Finished packaged product transported by ground (DOT): UN1987; Class 3; Alcohols, N.O.S.

Finished packaged product transported by vessel (IMDG): UN1987; Class 3; Alcohols, N.O.S.

Finished packaged product transported by air (IATA): ID8000, Class 9, Consumer Commodity ORM-D

SECTION 15 - REGULATORY INFORMATION

Regulated as a Cosmetic and/or Drug under FDA (US), HBP (Canada), Cosmetics Directive (EU), MHW (Japan) and MOH (China).

US Federal:

The product described in this MSDS is regulated under the FDA Cosmetics Act and is safe to use as per directions on container, box or accompanying literature.

United States of America:

California Prop 65:

This product is not subject to warning labeling under California Proposition 65.

Other:

Fragrances/Perfumes contained within the products covered under this MSDS comply with appropriate IFRA guidance.

SECTION 16 - OTHER INFORMATION

DISCLAIMER:

This MSDS is intended to provide a brief summary of our knowledge and guidance regarding the use of this material. The information contained here has been compiled from sources considered by Diora Professionnel to be dependable and is accurate to the best of the company's knowledge. It is not meant to be an all-inclusive document on worldwide hazard communication regulations.

This information is offered in good faith. Each user of this material needs to evaluate the conditions of use and design the appropriate protective mechanisms to prevent employee exposures, property damage or release to the environment. Diora Professionnel assumed no responsibility for injury to the recipient or third persons, or for any damage to any property resulting from misuse of the product.

Material Safety Data Sheet (MSDS)

| SECTION 1 - CHEMICAL PRODUCT AND COMPANY IDENTIFICATION |
|---|
| Product Name: Keratherapy Keratin Infused Root Boost & Volumizer |
| Company Identification: Developed for and Distributed by: Diora Professionnel, LLC 1037 NW 3rd Street Hallandale Beach, Florida 33009 Telephone: 1-954-628-5163 |
| Emergency Contact: In case of medical emergencies, please contact your local poison control center. Transportation Emergency Contact: Customer Support Line: ChemTel 1-813-248-0585 |

| SECTION 2 - COMPOSITION AND INGREDIENTS INFORMATION |
|--|
| Ingredients: Water (Aqua), Alcohol Denat, VP/VA Copolymer, PEG-12 Dimethicone, Fragrance (Parfum), Vinylcaprolactam/VP/Dimethylaminoethyl Methacrylate Copolymer, Litsea Glutinosa Bark Extract, Hydrogenated Hemp Seed oil, Macrocystis Pyrifera Extract, Hydrolyzed Wheat Protein/PVP Crosspolymer, Keratin Amino Acids, Wheat Amino Acids, Hydrolyzed Silk, Menthoxpropanediol, Alpha Isomethyl Ionone, Benzyl Benzoate, Limonene, Linalool, Coumarin |
| Hazardous Ingredients: SD Alcohol 40-B CAS# 64-17-5 <55% w/w |

| SECTION 3 - HAZARDS IDENTIFICATION |
|--|
| EMERGENCY OVERVIEW: This is a personal care or cosmetic product that is safe for consumers and other users under intended and reasonable foreseeable use. Additional information and/or Toxicological endpoints is available from the supplier upon request. |
| POTENTIAL HEALTH EFFECTS: Eye: Contact may cause irritation. Some redness and/or stinging may occur. |
| Skin: Not expected to be irritating, sensitizing, photoallergenic or phototoxic when used as intended. If irritation occurs following intended use or prolonged contact it is expected to be mild and transient. |
| Inhalation: Not expected to be irritating to the respiratory system. Not volatile therefore limited inhalation exposure anticipated. |
| Ingestion: Do not ingest. May cause gastrointestinal irritation with nausea and vomiting if swallowed. |

SECTION 4 - EMERGENCY AND FIRST AID MEASURES

Eye:

Immediately flush eyes with running water for at least 15 minutes. If discomfort irritation persists, seek medical attention.

Skin Problem:

Discontinue use of product. Rinse affected area with cold water to relieve discomfort. If irritation persist, seek medical attention.

Inhalation:

Discontinue use and seek fresh air. If breathing is difficult or not breathing, seek immediately medical attention.

Ingestion:

Do not induce vomiting unless directed by a medical personnel. Seek immediate medical attention.

SECTION 5 - FIRE FIGHTING MEASURES

Flammability Classification:

Flammable

Flash Point:

29.3° F

Extinguishing Media:

Water spray, foam, carbon dioxide, dry chemical.

Explosion Hazard:

Flammable, keep away from heat, spark and open flames. Store in a cool well ventilated area.

Fire Fighting Instructions:

CO2, Dry Chemical or Foam to extinguish fires. Addition of water fog will aid in reducing burning. Use NIOSH self-contained breathing apparatus in confined areas. Spray exposed containers with water to reduce fire/explosion risk.

SECTION 6 - ACCIDENTAL RELEASE MEASURES

For Small Spills:

Absorb liquid with inert material (dry sand or soil) and scrub area with detergent and water. Dispose of spilled substance in appropriate container.

For Large Spills:

Dike or other containment method to keep material from reaching waterway. Remove dike material to appropriate container. Clean area with detergent, solvents and/or water. Use of personal protection and equipment (Gloves, Safety Glass and Respiratory Mask) should be used to limit exposure.

SECTION 7 - HANDLING AND STORAGE

Usage Precautions:

No applicable information has been found.

Storage Precautions:

Store in a cool dry area. Protect from freezing and extreme heat. Keep out of reach of children.

SECTION 8 - EXPOSURE CONTROLS, PERSONAL PROTECTION

Respiratory Protection:

No respiratory irritation data exist. This is a personal care product safe for consumers and other users under normal and reasonably foreseen use.

Ventilation:

Ensure adequate ventilation when used.

Protective Clothing:

Protective gloves, aprons and other clothing to prevent skin contact. Avoid prolonged contact with skin and clothing.

Eye Protection:

Use safety glasses or splash shield if splash hazards exist.

Other Precautions:

Wash hands thoroughly after handling product, before eating, smoking or drinking.

SECTION 9 - PHYSICAL AND CHEMICAL PROPERTIES

Color, Odor and Appearance: Light Yellow, Fruit Fragrance, Liquid . **Physical State:** Liquid

pH (at 25°C): 5.65 - 6.65. **Flash Point:** 29.3°. **Vapor Density (air = 1):** 0.85 - 0.95

Melting Point: N/A. **Boiling Point:** N/A. **Solubility in Water:** Soluble.

Specific Gravity: Approx. 1. **Evaporation Rate (water = 1):** Less than 1

SECTION 10 - STABILITY AND REACTIVITY

Stability:

Stable under normal conditions

Conditions to Avoid:

Keep away from heat and ignition sources, avoid elevated temperatures and direct sunlight. Keep away from strong oxidizing agents.

Other Recommendations:

None

SECTION 11 - TOXICOLOGICAL INFORMATION

Health Warnings:

May cause skin or eye irritation.

Chronic Effects:

Finished product is not expected to have chronic health effects when used as directed. Misuse can cause irritation of the respiratory tract, gastro-intestinal tract, the eyes and skin.

Other Toxic Effects of Humans:

Slightly hazardous if ingested.

SECTION 12 - ECOLOGICAL INFORMATION

Ecotoxicity:

This product is expected to be safe for the environment at the concentration levels present in case of accidental spillage. Large quantities should not be discharged in waterways to prevent pollution of waterways.

Degradability:

Possible hazardous short term degradation products are not likely; however, long term degradation products may arise. The products of degradation are less toxic than the product itself.

SECTION 13 - DISPOSAL CONSIDERATIONS

Waste Disposal Method:

Disposal should be in accordance with Federal, State and Local regulations. Do not dispose of in waterways, drains, sewers or in soil.

SECTION 14 - TRANSPORTATION INFORMATION

Finished packaged product transported by ground (DOT): UN1987; Class 3; Alcohols, N.O.S.

Finished packaged product transported by vessel (IMDG): UN1987; Class 3; Alcohols, N.O.S.

Finished packaged product transported by air (IATA): ID8000, Class 9, Consumer Commodity ORM-D

SECTION 15 - REGULATORY INFORMATION

Regulated as a Cosmetic and/or Drug under FDA (US), HBP (Canada), Cosmetics Directive (EU), MHW (Japan) and MOH (China).

US Federal:

The product described in this MSDS is regulated under the FDA Cosmetics Act and is safe to use as per directions on container, box or accompanying literature.

United States of America:

California Prop 65:

This product is not subject to warning labeling under California Proposition 65.

Discontinue use of product. Rinse affected area with cold water to relieve discomfort. If irritation persist, seek medical attention.

Inhalation:

Discontinue use and seek fresh air. If breathing is difficult or not breathing, seek immediately medical attention.

Ingestion:

Do not induce vomiting unless directed by a medical personnel. Seek immediate medical attention.

SECTION 5 - FIRE FIGHTING MEASURES

Flammability Classification:

Non-Flammable

Flash Point:

Unknown

Extinguishing Media:

Water spray, foam, carbon dioxide, dry chemical.

Explosion Hazard:

None

Fire Fighting Instructions:

No special fire fighting instructions. Water spray, foam, carbon dioxide, dry chemical.

SECTION 6 - ACCIDENTAL RELEASE MEASURES

For Small Spills:

Absorb liquid with inert material (dry sand or soil) and scrub area with detergent and water. Dispose of spilled substance in appropriate container.

For Large Spills:

Dike or other containment method to keep material from reaching waterway. Remove dike material to appropriate container. Clean area with detergent, solvents and/or water. Use of personal protection and equipment (Gloves, Safety Glass and Respiratory Mask) should be used to limit exposure.

SECTION 7 - HANDLING AND STORAGE

Usage Precautions:

No applicable information has been found.

Storage Precautions:

Store in a cool dry area. Protect from freezing and extreme heat. Keep out of reach of children.

SECTION 8 - EXPOSURE CONTROLS, PERSONAL PROTECTION

Respiratory Protection:

No respiratory irritation data exist. This is a personal care product safe for consumers and other users under normal and reasonably foreseen use.

Ventilation:

No special ventilation requirements exist.

Protective Clothing:

Protective gloves, aprons and other clothing to prevent skin contact. Avoid prolonged contact with skin and clothing.

Eye Protection:

Use safety glasses or splash shield if splash hazards exist.

Other Precautions:

Wash hands thoroughly after handling product, before eating, smoking or drinking.

SECTION 9 - PHYSICAL AND CHEMICAL PROPERTIES

Color, Odor and Appearance: White, Fruit Fragrance, Cream . **Physical State:** Cream

pH (at 25°C): 5.5 - 6.00. **Flash Point:** N/A. **Vapor Density (air = 1):** Greater than 1

Melting Point: N/A. **Boiling Point:** N/A. **Solubility in Water:** Soluble.

Specific Gravity: Approx. 1. **Evaporation Rate (water = 1):** Less than 1

SECTION 10 - STABILITY AND REACTIVITY

Stability:

Stable

Conditions to Avoid:

Slightly reactive with oxidizing and reducing materials, acids, alkalis. Avoid extreme heat and freezing.

Other Recommendations:

None

SECTION 11 - TOXICOLOGICAL INFORMATION

Health Warnings:

May cause skin or eye irritation.

Chronic Effects:

Finished product is not expected to have chronic health effects.

Other Toxic Effects of Humans:

Slightly hazardous if ingested.

SECTION 12 - ECOLOGICAL INFORMATION

Ecotoxicity:

This product is expected to be safe for the environment at the concentration levels present in case of accidental spillage. Large quantities should not be discharged in waterways to prevent pollution of waterways.

Degradability:

Possible hazardous short term degradation products are not likely; however, long term degradation products may arise. The products of degradation are less toxic than the product itself.

SECTION 13 - DISPOSAL CONSIDERATIONS

Waste Disposal Method:

Disposal should be in accordance with Federal, State and Local regulations. Do not dispose of in waterways, drains, sewers or in soil.

SECTION 14 - TRANSPORTATION INFORMATION

Finished packaged product transported by ground (DOT): Non-hazardous

Finished packaged product transported by vessel (IMDG): Non-hazardous

Finished packaged product transported by air (IATA): Non-hazardous
