RESPIRATORY PROTECTION:

When working with large quantities, a NIOSH/MSHA approved air-purifying respirator with a mist filter may be permissible when aerosol levels are low (e.g. <10 mg/cubic meter), or when vapor levels are below their permissible exposure limits. Protection provided by air purifying respirators is limited. An end of service life indicator (ESLI) or a change schedule are required to be sure that cartridges or canisters are replaced prior to the end of their effective service life. Use a positive pressure, supplied air respirator if there is any potential for an uncontrolled release, when exposure levels are not known, or in any other circumstances where air purifying respirators may not provide adequate protection. A program conforming to the requirements of 29CFR1910.134 should be used to control use of all respirators.

Eye Contact	Contact would be expected to cause transient redness if not washed out and left in the eye for an extended period of time. No visual impairment is expected.
Ingestion Irritation:	Ingestion may cause irritation of the gastrointestinal tract and gastrointestinal discomfort with any or all of the following symptoms: nausea, vomiting, lethargy or diarrhea.
Ingestion Toxicity:	Not expected to be toxic by ingestion unless large amounts are swallowed.

Prolonged (Chronic) Health Effects

Carcinogenicity:	This product is not known or reported to be carcinogenic.
Reproductive and Developmental Toxicity:	No reproductive or developmental risk to humans is expected from exposure to this product.

IV. FIRST AID

Inhalation:	Remove individual to fresh air.
Skin / Eye	Remove contact lenses, if used. Flush with copious amount of water for 15 minutes.
Contact:	Call a physician if irritation develops.
Ingestion:	Immediately drink water to dilute. Never give anything by mouth to an unconscious person. Call a physician if symptoms develop.

EYE CONTACT: If irritation or redness due to vapors develops, move victim away from exposure and into fresh air. If material gets into the eyes, flush eyes immediately with clean water for at least 15 minutes. If available, use eye-cups or eye wash fountain. If symptoms persist, get medical attention.

SKIN CONTACT: Call a physician if irritation develops.

INHALATION: If respiratory symptoms develop, move victim away from source of exposure and into fresh air. If symptoms persist, get medical attention. If victim is not breathing begin artificial respiration immediately. Get medical attention.

INGESTION: Product is not likely to be ingested. If this occurs, treat systematically. Never give fluids or induce vomiting if victim is unconscious or having convulsions

5. FIRE FIGHTING MEASURES

Flammability Summary (OSHA):	Product is not known to be flammable, combustible or explosive.
<u>Flammable Properties</u>	
Flash Point:	Not established
Fire/Explosion Hazards:	Material may be ignited only if preheated to high temperatures, for example in a fire. Relative hazard is anticipated to be the same as typical combustible materials.
Extinguishing Media:	Use foam, carbon dioxide, dry chemical, or water spray when fighting fires.
Fire Fighting Instructions:	In case of fire, use normal fire fighting equipment including a NIOSH approved self-contained breathing apparatus (SCBA). Use water to cool containers.
Hazardous Combustion Products:	Carbon Dioxide and Carbon Monoxide

6. ACCIDENTAL RELEASE MEASURES

SPILL ON LAND (LARGE SPILL): Eliminate sources of ignition. Prevent additional discharge of material, if possible to do so without risk. Minimize breathing of vapors and skin contact. Ventilate confined spaces. For small spills implement the following cleanup procedures: Prevent material from entering sewers, watercourses, or low areas. Contain spilled material with sand or earth. Do not use combustible materials such as sawdust. Observe precautions for volatile, combustible vapors from absorbed material. For large spills implement the preceding cleanup procedures and, if in public area, keep public away and advise authorities. Consult an expert on disposal of recovered material and ensure conformity to local disposal regulations.

SPILL ON WATER (LARGE SPILL): Eliminate sources of ignition. Warn occupants and shipping in surrounding and downwind areas of fire and explosion hazard and request all to stay clear. Remove from surface by skimming or scooping up floating material. Consult an expert on disposal of recovered material and ensure conformity to local disposal regulations.

SMALL SPILLS: Leaking containers should be placed in open containers, outdoors, away from any source of ignition, until all pressure has been released.

Section 3. Hazard Identification

Emergency Overview:	Warning: Contents under pressure. Container may burst if heated. Do not place in hot water, or near radiators, stoves or other sources of heat. Do not puncture or incinerate container or store at temperature over 120 °F. Do not use in presence of open flame or spark or other sources of ignition. KEEP OUT OF REACH OF CHILDREN. Avoid getting into eyes. Use only as directed. Intentional misuse by deliberately concentrating and inhaling the contents can be harmful or fatal.
Potential Health Effects:	
Eye contact:	Contact may cause mild eye irritation including stinging, watering, and redness.
Skin contact:	Practically non-irritating to skin. No harmful effects from skin absorption are expected.
Inhalation:	Contains asphyxiant gases. Intentional inhalation of gases may cause headache, fatigue, weakness, mental confusion, mood disturbances, and decreased coordination and judgment. Severe overexposure may produce more serious symptoms, including coma and death.
Ingestion:	Acute discomfort, cramping, diarrhea. No chronic effects are expected to occur from a single accidental ingestion.
Chronic Effects:	None when used as directed.

Product Name:	Healing Volume Root Effects, 6% VOC	MSDS # DAV010-SW794
Product Code:	DAV13518	Issued: 3/16/12

Section 4. First Aid Measures

Eye:	Flush or rinse eye with tempered water while holding eyelid open. If irritation or redness persists seek medical attention.
Skin:	Clean affected area(s) thoroughly by washing with mild soap and water. Pat dry. If irritation or redness develops and persists, seek medical attention.
Inhalation:	First aid is not normally required. If breathing difficulties develop, move victim away from source of exposure and into fresh air. Give oxygen as necessary. Seek immediate medical attention.
Ingestion:	DO NOT induce vomiting. Have a conscious person drink several glasses of water. Seek medical attention.

Section 5. Fire Fighting Measures

Flammability Classification:	Non Flammable pursuant to CFR 16, Ch II Subchapter C, part 1500.45.
Aerosol Level:	Aerosol Level 1 (Ref: to NFPA 30B, Section 1-7 of August 6, 1998) <i>Code for the Manufacture and Storage of Aerosol Products.</i>
Unusual Fire & Explosion Hazards:	Aerosols may burst at temperatures above 120 °F. Contents under pressure. Cool uninvolved containers to prevent possible bursting. Released materials will foam when sprayed directly with water. Floors may be slippery where materials are released.
Extinguishing Media:	Use extinguishing agent suitable for type of surrounding fire.
Fire Fighting Instructions:	The use of self-contained breathing apparatus is recommended for fire fighters. Fight fire upwind . Containers exposed to intense heat from fires must be cooled with water to prevent vapor pressure buildup which could result in container rupture. Keep containers cooled with water and remove them from danger if it can be done with minimal risk. Aerosols can be projectiles when bursting. If aerosols are bursting, stay clear until bursting is complete.

Section 6. Accidental Release Measures

Large Spills:
Keep sources of ignition and hot metal surfaces isolated from spill. Stay upwind and away from spill/release. Isolate immediate hazard area and keep unauthorized personnel out. Stop spill/release if it can be done with minimal risk. Wear appropriate protective equipment including respiratory protection as conditions warrant. Water may be useful in minimizing or dispersing vapors. Keep out of water supplies.

Section 7. Handling and Storage

Handling:	Contents under pressure. Handle as to avoid puncturing container(s). When used as intended, no additional protective equipment is necessary. Use chemical goggles if likelihood of eye contact. Wash unintentional residue with soap and water.
Storage:	Store aerosol containers in cool, dry, well-ventilated areas away from heat and direct sunlight. Keep away from any incompatible material (see Section 10). Protect container(s) against physical damage. To avoid unintentional spraying keep protective cap in place when not in use.

Product Name:	Healing Volume Root Effects, 6% VOC	MSDS # DAV010-SW794
Product Code:	DAV13518	Issued: 3/16/12

Section 8. Exposure Controls / Personal Protection

Engineering Controls:	A well ventilated room with adequate air circulation. Use local and general exhaust ventilation to effectively remove and prevent buildup of vapors/mist generated from the handling of this product.
Respiratory:	If used with adequate ventilation, no protective equipment is necessary.
Skin:	Not required based on the hazard of the material.
Eye/Face:	While contact with this material is not expected to cause appreciable irritation, the use of approved eye protection to safeguard against potential eye contact is considered good practice.
Other Protective Equipment:	A source of clean water should be available in the work area for flushing eyes and skin. Impervious clothing should be worn as needed.

Section 9. Physical and Chemical Properties

Consult an expert on disposal of recovered material and ensure conformity to local disposal regulations.

SPILL ON WATER (LARGE SPILL): Eliminate sources of ignition. Warn occupants and shipping in surrounding and downwind areas of fire and explosion hazard and request all to stay clear. Remove from surface by skimming or scooping up floating material. Consult an expert on disposal of recovered material and ensure conformity to local disposal regulations.

SMALL SPILLS: Leaking containers should be placed in open containers, outdoors, away from any source of ignition, until all pressure has been released.
